School Officers—Term III, 1937.

Captain of the School—J. A. Forbes.

Prefects—J. A. Forbes, T. H. Kelsall, J. L. Calhoun, T. M. Collins, T. T. Laidlaw, N. G. Sutherland, R. D. Watson, R. H. A. Wettenhall, I. H. McPherson.

House Captains—Calvert, R. D. Watson; Morrison, T. M. Collins; Shannon, N. G. Sutherland; Warrinn, T. H. Kelsall.

Rowing Committee—Mr. L. J. Campbell, I. H. McPherson, J. A. Forbes, I. H. Silke, T. Kelsall, R. H. A. Wettenhall, K. S. McDowall (captain of boats).

Library Committee—Mr. C. F. H. Ipsen, J. W. Callander, A. S. Feddersen.

Music Committee—Mr. R. Shepherd, Mr. G. Logie Smith, K. S. McDowall, A. S. Feddersen, F. J. H. Moreton, R. D. Watson, R. H. A. Wettenhall.

House of Guilds Council—Mr. R. E. Radcliffe (Warden), I. Surplice, R. H. A. Wettenhall, T. Kelsall, G. Roope, A. D. Humphrey.

"The Pegasus" Committee—Mr. B. R. Keith, R. D. Watson (Editor), R. K. Doig, (Secretary), J. K. Aitken, I. A. H. Turner, H. W. Stubbs, W. H. Steel, B. C. McKenzie.

Tennis Committee—Rev. F. W. Rolland, Mr. G. H. Lawton, J. L. Calhoun, N. G. Sutherland, J. W. Callander.

Athletics Committee—Mr. V. H. Profitt, T. H. Kelsall, I. H. McPherson, D. J. A. Dennis, R. D. Watson, K. S. McDowall, B. G. McKenzie, N. G. Sutherland, R. H. A. Wettenhall.

Cricket Committee—Mr. V. H. Profitt, J. L. Calhoun, R. D. Watson, C. M. Carmichael, W. P. Johnstone.

APPROXIMATE TERM DATES—1938.

Term I.....February 9th to May 13th.

Term II.....May 31st to August 26th.

Term III September 13th to December 13th

DECEMBER, 1937.

5

THIS year has been one of fulfilled and disappointed hopes, of success and failure, happiness and discontent. On the surface, the statement may seem contradictory, but really it is true, for even our unrealised ambitions and our failures contribute towards making the year a great success.

New buildings completed and those now proposed represent steps in the realisation of the plan for a completely remodelled school. None would deny that the House of Music has been a success and achieved its purpose. Who, when he was playing cricket on the old "Cow Paddock," did not dream of a lovely smooth oval? And now we have it. In these and other ways have hopes been realised.

The College gained only moderate success at sport, but does it really matter? Winning or losing is immaterial—what does matter is the lesson we learned from playing. We achieved the spirit of the game, sportsmanship, keenness, concentration and even courage. Can it be said that we failed?

To all of us the many restrictions imposed by the epidemic have been inconvenient and trying, yet, in spite of these troubles, the school has been remarkably cheerful and as well ordered as ever. From this have we learned an important lesson: we have come to triumph over adversity, have been baffled, to fight better. The whole year has been an object-lesson of what will be expected from us throughout our lives, to take failure with success, disappointment with happiness, and to keep a smiling face all the time.

THANKS.

Many thanks to the members of "The Pegasus" committee who have given generously of their time and talents in the compilation of this record. Through the weeks required for the production of each issue they have cheerfully carried out assignments demanding patience and accuracy, sometimes clashing with insistent demands from school work and sporting activities, yet the standard of their contributions has steadily risen. Mention must also be made of those not on the committee who have come forward with articles on their own special interests or with original matter, particularly those who have persevered in spite of editorial criticism until their work has won acceptance on its merits.

School Items.

THE year 1937 will be long remembered by the tragic epidemic of infantile paralysis which Victoria, like many other countries, found added to the list of human anxieties. In spite of intensive research and the closing of schools, the disease spread through the metropolis and reached several country centres.

Although Geelong College refrained as long as possible from serious restrictions, it was early realised that this was no ordinary epidemic; when the blow fell, just as all were preparing for the September vacation, there were many heavy hearts. But a triangle of fortitude formed by parents, teachers and pupils gave the needed strength to support the inevitable. In an endeavour to compensate for the cancellation of the holidays and level the time-table was considerably altered for two or three weeks. Boarders rose later than usual and school opened late. Special Sporting contests were

DECEMBER, 1937.

5

arranged, no classes were held on Wednesdays, while several picnic trips to the country were organised by the Principal, Masters and Old Boys. Then the Cadet Corps held a successful camp at Queenscliff while the juniors were enjoying a holiday at Anglesea.

Thus fortified according to the "change-is-as-good-as-a-rest" school of psychology, we went about the business of third term. And though leave restrictions continued, sport was curtailed and examination plans were modified, we must be truly thankful that the year, with all its imperfections, was brought to a fairly successful close, that senior boys were enabled to reap the reward of their efforts by sitting for scholarships and public examinations, and particularly that all have been spared to complete the year in health and strength.

The school is indebted to Mr. and Mrs. Howell for valuable gifts including many books for the library and two violins for the House of Music. These were presented in memory of their son Robert, a very devoted Collegian, whose death on August 29th was a great grief to the whole school.

STAFF NOTES.

Congratulations to Mr. and Mrs. V. H. Profitt on the birth of a daughter on July 12.

Mr. G. Logie Smith recently gained the degree of Licentiate of the Musical Academy of Australia at the examinations conducted by the Conservatorium of Music, University of Melbourne.

Mr. C. F. Whorwell will be staying with us as Senior Science Master for the first term next year. Mr. Henderson, who is now at St. George's School, Harpenden, Herts., will return in May.

Next year we shall miss from the teaching staff Mr. G. H. Lawton. B.A., Dip. Ed. and Mr J F Rusden, both of whom have given the school splendid service in the classroom and at sport. Mr. Lawton, who is to be married before Christmas, will proceed to England to take up a teaching post there.

THE PEGASUS,

ADDRESSES, EXCURSIONS AND ENTERTAINMENTS.

In October the school was honoured by a visit from the Moderator-General of the Presbyterian Church of Australia (Rt. Rev. John MacKenzie) and the Rev. Dr. Adam Burnet of Scotland who, in a brief but impressive address, explained to us the need for humility and established himself as a friend to every Collegian.

While we were unable to attend St. George's Church because of the epidemic, a school service was conducted each Sunday afternoon in the Morrison Hall, the Principal being assisted by the School Chaplain (Rev. James McMaster) and on one occasion by Rev. James Young, an Old Collegian, who recently won a travelling scholarship entitling him to study in Scottish Universities.

Several picture shows have been given at the College, including excellent films of the Coronation loaned by Mr. R. G. Casey and some interesting colour pictures illustrating Mr. Balfour's Inland Mission work in the centre of the continent. The Ford Motor Co. supplied a full programme of talking pictures. We should like to thank all who have assisted in entertaining us.

Generations of College boys have come to regard with affection and respect the Rev. Canon Wheeler of All Saints' Church of England, Newtown, who conducted his farewell services as vicar on October 17th. Besides his spiritual interest in the Anglican boys, Canon Wheeler has always evinced a real friendship towards all Collegians, many of whom will remember his talent as a musician and entertainer. It is pleasing to learn that the Canon is going to settle down quite near us, in Stephen Street, Newtown. The newly appointed vicar of All Saints' is the Rev. O. J. Brady, to whom we extend a hearty welcome.

At the end of the second term Gordon Inglis, our popular and successful Head Prefect, was called to a position in the offices of the Shell Co., Melbourne. In his comparatively short stay at the College, Inglis won his way to recognition as an outstanding buy and a willing worker for the school, which now wishes him every success in the business world. Congratulations to J A Forbes, the new captain of the School, and to I H McPherson on his appointment as a Prefect.

The MVA classroom can now be converted in about one minute into a completely darkened theatre for visual education. Being equipped with an epidiascope and a cinema projector, this theatre has given a fourth dimension to the work in several subjects including Art, French, Science and Geography.

A party of sixth form Science boys visited the Pivot Phosphate Works at North Geelong. They were shown the manufacture of sulphuric acid which is used in treating rock phosphate to form super-phosphate. Another excursion was held to the Cement Works. We first saw how cement is made, then went out to the quarries where, during afternoon tea, the head of the chemical department explained the theory of cement and later showed us his laboratory and explained and demonstrated how the apparatus worked. We are very grateful to the management of these concerns for providing such enjoyable and instructive outings.

During the third term the Honours Science class was fortunate enough to be allowed to inspect Dr. A. R. Moreton's X-Ray apparatus. The modern machine now in use illustrated the advance made in this branch of science of late years and Dr. Moreton's kindness was much appreciated.

THE PEGASUS.

Design for Fourth Boarding House at Geelong College.
To be completed early next year.

DECEMBER, 1937.

9

Speech Day, 1937.

(Reprinted by the courtesy of the " Geelong Advertiser.")

ON account of the extraordinary circumstances, arrangements for the senior school speech day were considerably modified this year. A short function was held in the Morrison Hall on Friday morning, November 19, when there was a good attendance of pupils, parents and members of the College Council.

The Principal gave a brief address, in which he said there were three kinds of schoolboys, just as there were three kinds of citizens. The first kind were, often thoughtlessly, traitors to the best in tradition; the great majority simply accepted things as they were; but the real leader asked himself how he could improve the tradition of his school.

Prizes for class work were presented by Mr. S. B. Hamilton-Calvert and House Cups by Mr. Ford Shannon.

Principal's Report.

"This is a year which will never be forgotten by Headmasters or Headmistresses, a year in which many sudden decisions had to be made, and no one knew what a day might bring-forth. Our sympathy goes out to those who have had the much greater anxiety of a case of paralysis in their own homes, a lot that has not fallen to any families connected with the College.

"I cannot express in any words my deep appreciation of the remarkable faith shown by parents in the wisdom of the various steps taken to ensure the safety of their children. I take this opportunity of acknowledging the many letters of thanks that they have written. The epidemic has had at least this one good report, that it has brought the parents and the schools into more than usually intimate cooperation,

"I greatly regretted having had to come to the conclusion that it would be wiser to cancel the second vacation

holidays. Not only did this mean a great disappointment to masters and parents, but it also meant an unusually long term of work for the boys. How to overcome this difficulty was the problem.

"By introducing totally new games and making the working day a little shorter and reducing home work to a minimum, the common routine was altered for a fortnight, but I felt, in fairness to the boys, they should have a clear break from school before taking a third term. Over one hundred senior boys, therefore, went into military camp at Queenscliff. Sixty juniors had a holiday at Anglesea. A very commodious hotel was taken for their use. The proprietors did everything possible to provide for the boys, and were amazed at the conduct of their guests. There was no case of breakage of any article whatever, nor of any damage done to a single bush in the garden.

THE PEGASUS,

"It seemed advisable for the sake of day boys who were doing their public examinations this year, to bring them into residence before there was any risk of contact. Many boys availed themselves of this offer.

"These various rearrangements meant a great deal of extra work to many people. I should like to place on record my sense of obligation to all who were involved, and especially to the Bursar (Miss Reeves), and her assistants in the office. Every new development and change of plan had to be communicated by wire or letter. I must thank the masters for the cheerful way in which they accepted the sudden cancellation of long-made second vacation plans. The anxieties of this year were increased owing to the fact that the number of boarders, and in particular of young boarders, was the largest in the history of the College.

Planned System of Extension

"Ten years ago I impressed upon the Council the need of more system in making additions to the School, and was empowered to draw up with an architect a plan for the completion of Geelong College. The style I chose was Tudor Gothic, as it was possible to harmonise such a style with the existing main School and also because it was the only recognised type of architecture which admitted the fullest amount of air and sunlight. There had been no outstanding architect who had been able to devise a special Australian architecture, and I thought it wiser to cling to some style that had stood the test of centuries. Also in a new country like this, where history is not written in stone in every village and city, a style that reminds boys of the traditions that lie behind them has special value.

"I must thank the Council for giving me so free a hand in the architectural development of the School and owing to the generous support of some of the Old Collegians and of some of my own friends, that development has been far more rapid than I ever dreamt. It has entailed many days of anxious thought and the casting out of many plans, and I am grateful to Mr. Philip Hudson, the architect, for the endless trouble he

has taken to satisfy my demands for a union of usefulness and dignity and beauty.

"The buildings of the last ten years include a complete Refectory Block, which contains the famous dining hall, one of the most perfect existing specimens of modern Gothic. The new Junior House followed—a house of sunlight. Gradually, year by year, the long south wing was built and is now completed. The cloisters have also grown piece by piece as occasion arose, and now only the west end of the quadrangle remains to be completed. My last idea for that end leaves much of the west open to sun and wind and affords scope for a delightfully uncommon feature; though no architectural inspiration has yet been given which satisfactorily meets the novel conditions. But it will come

"During the last long vacation the old Senior House, planned in the dark ages of school architecture, was remodelled. It was a costly piece of work, but it has made a new House. Additions were also made to Warrinn House. After many plans had been rejected a unique and charming House of Music was designed and built in the early part of the year. The demand for places at the College, after various increases of accommodation, still remains unsatisfied, and the Council is planning a new boarding-house for sixty boys. The completed building will be reminiscent of an Elizabethan Manor house, and will thus be in keeping with the Tudor style chosen for the whole scheme. Every room has direct sunlight. The sketch of the new House, published in the Press, has won universal approval as the design of probably the most home-like and beautiful school boarding-house in Australia.

"This House will hold a dominating position on the very top of the College hill, and will command on one side a wide view over Corio Bay, and, on the other, will look out over the Barwon Valley. The cost will be about £17,000. Towards this sum the trustees of the Mackie Estate have donated £10,000. There rests upon the friends of the School the heavy task of raising £7,000. Of this sum promises, extending over ten years, of £2,500 have already been received, and another £1,000 has been promised by that great friend

DECEMBER, 1937-

"

of education, Mr. James McPhillimy. To the trustees of the Mackie Trust and to these generous donors and to other donors yet to appear we are deeply grateful.

"A valuable block of land adjoining the House of Guilds was purchased during the year, and this gives us a long frontage to Talbot Street opposite the Refectory Block. On this site the final boarding house will be built when another £15,000 will be required. Warrinn House will then be demolished and be replaced by tennis courts and garden. We are also hoping to complete the quadrangle which would give us extra class rooms. With the need of purchasing more land, and the pressure of interest charges always upon us, only by unexpected gifts can we still go forward.

Educational Conference

"During the year there occurred the most outstanding Educational Conference that has ever been held in Australia, when the New Educational Fellowship held its annual international gathering in Melbourne, Sydney, Adelaide, and Brisbane. Most of the visitors were men and women who had made special experiments in original methods of developing the child mind and in the encouragement of initiative. Most of them were exceptionally gracious and gifted people who would, probably, be successful with children whatever methods they adopted, but their experiments were very stimulating and gave to some of us the vision of a coming generation fitted in mind and soul and body to meet the increasing strain of the life of to-morrow

"The conference paid the two Geelong boys' Public schools the unusual compliment of planning a visit to study progressive educational ideas in Victoria. Unfortunately, owing to the epidemic in Melbourne, it was thought advisable that the visit should be cancelled. However, Dr. Norwood, recently Headmaster of Harrow one of the great figures in English education, was present to open the House of Music. He was amazed, he said to learn that there were still people in Australia who looked upon music as something unworthy of boys' schools, and added that such a view would be considered fifty years out of date in Britain. I

do not think, however, there are many people left in Geelong who are so far behind the times. We are all coming to recognise, even by the realisation of our own deficiencies, that children suffer lifelong deprivation if they are not, in their early years, introduced into the worlds of music and art.

Outstanding Study Results

"The school work has been to some extent affected by the unusual conditions prevailing, but most of the boys have done an excellent year's course. In the last two months some outstanding results have been obtained by Old Collegians in examinations, Iain Pattison winning a valuable scholarship at the Aberdeen University; Jas. Young obtaining at the Theological Hall the much-coveted Stewart Travelling-Scholarship which will give him a year's post graduate study in Scotland; and Graham McKenzie coming first in his year in physiology and winning the exhibition in that subject.

"Owing to the early date of the writing of this report other University results will be given later. Amongst our own boys last year the most brilliant effort was that of Howard Steel, who in his first year of Honor work, obtained a high place in the first-class honor lists in chemistry and physics, and third-class honors in Latin and maths. III. In chemistry he took third place in the State. Ten boys obtained one to four honors each.

"As usual the Leaving and Intermediate results were very satisfactory. The Intermediate examination has become less exacting in recent years owing to the lower standard required in two subjects. Nevertheless the Intermediate class is to be congratulated on having, with very few exceptions, passed the examination in six or more subjects. The less brilliant boys have received much guidance and help from their masters, and have been encouraged to attain a standard of work that at first seemed quite beyond them

Physical Development

"The physical development of the boys has received special attention during the year, and to Mr. H Dunkley sincere thanks are due for his attention to the physical culture of the boys. The Cadet Corps has also helped

THE PEGASUS,

considerably in giving the boys a better carriage and increased smartness. There still remain a few boys, however, who are slouching and antidy, and it is hoped that parents will co-operate with the school in seeking to increase their alertness.

'Extraordinarily high commendation was given by the military authorities, to our cadet corps, captained by Mr Lamb.

"In sport we again owe a special debt to Mr. Profitt, though along with him must be grouped all the masters who have so generously given up time to the coaching of teams, as well as Mr. Saleh, the coach of the crew, who has done so much to improve the College rowing. The crew this year was one of the best that the College has put on the river, but was not quite good enough to beat the winners—the crew of Xavier College—whom we congratulate on their fine effort.

"The cricket team had little success, few of the batsmen showing their beat form in matches.

"The football team went through the season with only one defeat, their play being full of determination and showing the result of wonderful coaching. Unfortunately the premierships matches were not completed owing to the epidemic in Melbourne. This also barred a much stronger team than usual from taking part in the combined sports. A great many matches were arranged for junior teams, and in spite of the impossibility of competition with outside schools, the year, from the sports point of view, has been a good one. The school tennis team won the only match it played.

Appreciated Assistance

"The full list of donations towards the new boarding-house will be published later. The anonymous friend who has so greatly assisted musical education at the College sent his promised contribution of half of the cost of the House of Music—a wonderful gift, which alone made the building possible.

"Towards the improvements to the exterior of the Morrison Hall the following gifts were received: Mr. Philip Hudson, £25; the Principal, £25; Mr. R. G. Menzies, £10. Towards the House of Guilds a gift of £10 was made by Mrs. Martin, of Tasmania.

"I am very glad to be able to announce that after some years of discussion, the H. V. McKay Trust have acceded very generously to my request for additional scholarships for ministers' sons, and have promised to ourselves and to Scotch College three scholarships each, which will together amount by the third year to £600 per annum, and provide for the full expenses of six ministers' sons. The term of each scholarship is three years. Towards the same object I have received £50 from Sir Keith Murdoch, £50 from Dr. J. Ringland Anderson, £50 from Miss D. Shannon, and sums of £60 and £30 from two of my friends who prefer to remain anonymous.

"One cannot but be most appreciative of the generous spirit that lies behind this helpfulness towards our country manses, where the calls are so many and the income is so small. Looking back over the last 18 years I am astonished to find that nearly £20,000 has been given in response to my appeals for the education of ministers' sons.

"Another gift of trees adds to our debt to Mr. F. Stinton, for whose generosity future generations will add their gratitude to ours. From Mr. and Mrs. Howell a gift of valuable violins was received in memory of their son, R. A. Howell, a most enthusiastic and loyal Collegian, whose sudden death was a great grief to all his friends. Mr. and Mrs. Howell also presented a large number of books to the College Senior and Preparatory School libraries.

"Prizes were given by the following:—Alliance Francaise, for French; Mr. S. B. Hamilton-Calvert and the Principal, for debating; Mrs. Borthwick, a form prize, both for Senior and Preparatory Schools; Mrs. A. Wilson, a form prize for the Preparatory School; Mr. A. W. Dennis, dux prize of the College; "The Argus," the prefect's prize.

College Societies

The various societies have had a flourishing year. The Science Club made its reappearance, and has been full of vitality. Mr. Whorwell has proved a good friend to it.

"The, Debatin society, under the charge of Mr Ipsen has been, as always, the strongest boys' organisation in the school. The excellent speaking at the boarders' farewell banquet was proof enough of the value of the train-

ing given by the Society.

The Library in its new home has become a very much appreciated part of the school life. The beautiful book cases are now seen to full advantage, and the choice of books is every month becoming larger.

"At the beginning of the year an additional music master was appointed and the examinations recently held show that the work done by the young pianists of the school has been very satisfactory. All who sat for examinations were successful, one boy, A. Feddersen, obtaining the degree of Associate of Music of Australia and five obtaining Honors.

"I should not like to end the years report without expressing my gratitude to those who have made it possible for me to assist in the wider work of the Church during this, her Centenary year. These include the Vice-Principal Mr. MacRoberts, and all my fellow workers on the various College staffs within and without the school. To the Rev. J. McMaster, the College chaplain, whose friendship and cooperation E deeply value, we are as usual greatly indebted. During the year Sir Alan Currie, of 'Ercildoune,' and Mr. L. J. McConnell, chief manager of the National Bank of Australia, have been added to the Council,

"My final word of thanks must be to the members of the Council, and especially to its chairman, Mr. Hamilton-Calvert, for the interest they take in the welfare of the School, and for the unflinching consideration which they have extended to me over a lengthening term of years."

Senior School Prize List and Special Prizes.

First division.—Form Lower V.B.: Dux, I. B. Paterson; second, K. C. McKenzie; third, P. Ashworth. Form Lower V.A.: Dux, R. G. Webster; second, A. W. J. Turnbull; third, D. B. Jeffery; fourth, J. Palmer; special prize, K. S. Nail. Form Middle V.B.: Dux, D. J. Roydhouse; second T. M. Slattery; third, D. Z. Laidlaw; fourth, J. F. Ewart. Form Middle V.A.: Dux, J. H. G. Watson; second, R. J. L. Dennis; third, F. H. Davey; fourth, P. H. Hall; fifth, F. P. Just. Form Upper V.B.: Dux, A. M. McMaster; second,

I. W. McDonald; third, A. T. Howells; fourth, A. W. Potter; fifth, A. G. Brown; sixth, D. W. Johns.

Second division.—Form Upper V.A.: Dux, R. R. Aitken; second, C. N. L. Birrell; third, J. S. Davidson; fourth, I. A. Surplice; fifth, T. D. Dowling; sixth, N. H. Williams; special prize, R. V. Dennis. Form Lower VI: Dux, J. G. McMaster; second, J. K. Aitken; third, W. G. Doig; fourth, N. A. McKinnon; fifth, H. G. Badger. Form Honour VI: English and history, H. W. Stubbs; Physics and chemistry, W. H. Steel; French, B. C. McKenzie.

Third Division.—The Gillespie Scripture prize, A. W. J. Turnbull.

Debating Society prizes: Senior (presented by S. B. Hamilton-Calvert Esq.): R. K. Doig; junior, A. N. Drury; most improved speaker (presented by the headmaster), I. A. H. Turner.

The Alliance Francaise Prize for French, B. C. McKenzie.

The Pegasus Prize, D. W. P. Borthwick.

The Fen and Roy Pillow Bursary, D. J. A. Dennis.

Dr. Gus Kearney Memorial Prize, N. G. Sutherland.

"The Argus" prize, J. A. Forbes.

Dux of the College (presented by the president of the Old Geelong Collegians Association, Mr. A. W. Dennis); R. K. Doig.

INTER-HOUSE COMPETITION

Athletics: Nigel Boyes Memorial Cup, won by Calvert House, Captain, R. D. Watson.

Shooting: Cup presented by J. Stoker and N. Shannon, won by Shannon House, Captain, Sgt. N. G. Sutherland.

Rowing: Henry Young Memorial Cup, contest not held.

Platoon competition: C. F. Griffiths Cup, won by Calvert House, Captain, Lieut. F. J. H. Moreton.

Aggregate Points: Inter-house competition, S. B. Hamilton-Calvert Cup, won by Calvert House, Captain, R. D. Watson.

SPECIAL PRIZES.

In addition to the above prizes and those for sporting successes, the following special prizes have been awarded:—

Boxing (presented by J. C. Kininmonth, Esq.): Junior, G. F. Bidstrup; Senior, T. H. Kelsall. Dancing (pre-

sented by Messrs. Bibron and Slaweski); Junior, J. S. Rolland; Senior, T. H. Kelsall. Gymnastics: Junior, I. K. Tieman; Senior, D. W. P. Borthwick. Shooting (presented by F. G.

Band, Esq.): G. R. Hodges. Cricket, M.C.C. Junior Membership Award: T. G. Inglis. Music (presented by Mr. Roy Shepherd): I. W. McDonald.

Preparatory School Headmaster's Report.

"The year now closing has been an anxious time not only for school authorities but also for parents. I feel that our sincere thanks are due to them for their excellent cooperation and their implicit faith in the School's handling of the many emergencies that have arisen from time to time. They should be pleased to know that their sons have responded in a similar manner. They have taken all the restrictions which have had to be placed on them without a complaint.

"The Preparatory School has been full to capacity again this year, the number of boarders being so great that an extra dormitory had to be added to the Junior House. This is encouraging, as it suggests that parents are appreciating the fact that an early association with both the 'School' and 'home' environment of the College is of distinct advantage.

"Kindergarten—The beginning of community life: Finding his place among his colleagues is a difficult task for a child to face when first coming to school. The child is more or less an unknown quantity to the mistress, and the mistress to the child. Yet from my observations of the Kindergarten boys I have constant proof that Miss Baird has that gift of understanding and sympathy necessary for the happiness and well-being of her charges. The Kindergarten boys as a whole have worked well and played well; taken their little walks to points of interest, and altogether lived very happy and busy lives. They are to be congratulated on the performance of the Percussion Band at the opening of the House of Music. Dr. Norwood of Harrow was thoroughly delighted with their skill and enthusiasm.

'Owing to increasing numbers, it was found necessary to provide further accommodation in the way of cloak and dressing rooms. This work was car-

ried out in harmony with the existing building and its surroundings. This latest addition has made the Kindergarten a wholly self-contained unit. The new garden and lawns are now a beautiful setting for the open-air and enclosed class rooms.

"The work of the school has progressed quietly and all things being considered, satisfactorily, it may be thought by some that direct instruction does not play a sufficient part in our class teaching, but it is not our policy merely to show children the way a thing is done, but rather to lead them to see for themselves how and why it is done. After all we are dealing with young children and to present a ready-made solution may only lead them to believe that they are being asked to do something which is beyond them. On the other hand if they think a thing out for themselves, with guidance where necessary, they gain confidence in themselves, and are not merely targets at which masters may shoot bullets of information.

"The whole school has made good use of the House of Music for its class singing, community singing and musical appreciation. The choir has worked hard throughout the year and reached a very fair standard. Unfortunately the concert they had hoped to give at the end of the year, and also the broadcast concert had to be cancelled.

"Acting is really a development of the natural play of all healthy children, it is something that bubbles up inside them, seeking release. We have been singularly fortunate in having Mr Home to regulate this release of a child's joy in life and he is to be commended on the way in which he has handled class activities. He has taken one class, not the individual for a basis on which to work, thus avoiding the grave danger of over-stimulating a few and developing feelings of

inferiority in the others. The boys' chief work this term has centred round Barrie's 'Peter Pan,' which they now hope to present early next year.

"Interest in craft work has been well maintained and some very good work has been done. There is, however, a tendency on the part of too many boys to attack difficult work before they have served their apprenticeship to the use of tools.

"The usual cricket and football matches have been played, although, in the latter part of the year we were forced to stay within our own boundaries. Nevertheless our time has been fully occupied. The athletic sports, held on an ideal day, proved to be one of the best meetings we have had for years. So close was the House competition that it was not till after the running of the last race that Pegasus could actually declare themselves the winners. A greater number of boys have joined the tennis club this year, and under Mr Lawton's able instruction have made good progress. There was keen competition for places in the House teams. In the actual House contest, Bellerophon eventually defeated Pegasus

"In order that the boys should have some break between second and third term and at the same time be more or less isolated. Mr. Rolland decided to take a large seaside hotel for their ex-

clusive use. The experiment proved to be a huge success, and the most pleasant week of the year, spent under ideal conditions, passed all too quickly. Our best thanks are due to all those who helped to make this holiday the enjoyable one it was.

"As this is the first occasion we have had since Mr. Rolland began his arduous duties as Moderator of the Presbyterian Church of Victoria, we, as a School, wish to congratulate him on the high office to which he has been called; one which we know he will so ably fill."

Preparatory School Prize List

Form I: Dux, A. I. Hocking. Form II: Dux, H. Purnell. Form III: Dux, P. Campbell. Form Lower IVB: Dux, D. G. Neilson. Form Lower IVA: Dux, D. J. Birrell; second, J. S. Whittaker. Form Middle IV: Dux, E. R. Mockridge; second, W. J. Blvins. Form Upper IVB: Dux, T. J. Hill; second, J. O. Randell (Brooke Wilson memorial prize, presented by Mrs. A. Wilson); third, N. F. Milne; fourth L. G. Vivian. Form Upper IVA: Second, W. E. Writkins; third, H. W. Lade; fourth, J. H. McKenzie; special prize, D. L. Woolley (presented by Mrs. Borthwick). Junior Debating Society prize: D. L. Woolley. Dux of Preparatory School: R. J. Byrne,

Inter-House Competition.

THIS year Calvert House, well organised by their House Master (Mr. J. H. Campbell) and captain (R. D. Watson), gained a decisive victory in the Inter-House competition for the S. B. Hamilton-Calvert Cup. This trophy is awarded for the highest aggregate of points scored in three terms of school work and all branches of sport; the outstanding feature of Calvert's results is the consistent performance in all sections, including class work. Warrinn and Shannon had a keen struggle for second act, and Morrison, while having little success in sport, filled second place studies. The Inter-House Rowing was not held for 1937.

Details are as follows:—

	Calvert	Morrison	Shannon	Warrinn
Swimming	3	1	0	2
Tennis	2	0	1	3
Cricket	1	0	1½	3
Football	2	0	1	3
Athletics	3	1	2	0
Shooting	2	1	3	0
Platoons	3	1	2	0
Class Work	7	5	3	3
Totals	23½		13½	

House of Music.

ON August 15th, 1937, occurred a momentous event in the musical life of the College—the official opening of the House of Music by Dr. Cyril Norwood, formerly Head Master of Harrow, England. The ceremony was preceded by a short musical programme in the Morrison Hall, when Mr. Shepherd, A. S. Feddersen, the Preparatory School Choir and the Percussion Band rendered items to a large and enthusiastic audience.

Then followed an address by Dr. Norwood in which he made interesting reference to the history of music in the Public Schools of England, especially Harrow, and also to the value of music in all cultural education. At the close of this address those present proceeded to the House of Music where, after a prayer of dedication by the Principal, Dr. Norwood declared the building open.

With the opening of the House of Music boys were enabled to pursue their studies under most congenial conditions and in almost complete quietness. On cold winter days the radiators were in great demand and made practice much more enjoyable. Musical Appreciation, singing and instrumental classes were not slow to express their satisfaction at the comfortable surrounding. The Glee Club was also able to enjoy these advantages, but unfortunately was unable to produce the operetta "Once Aboard the Lugger" at which it had been so diligently working.

The Music Club was unable to hold its usual meetings during the second and third terms and, judging by the numerous enquiries made by music lovers of Geelong as to the date of recommencing, they have been greatly missed.

The formation of the Percussion Band proved a great success and the young musicians in the Kindergarten are to be congratulated on the excellence of their work. An orchestra was also formed and gave promise of excellent results; the present members eagerly await the new year, when they hope to be given the opportunity of proving their worth, and when more boys are expected to avail themselves of the wonderful opportunity of studying the instruments which await them at the House of Music. Towards the close of the third term a Junior House Choir was formed. The boys entered enthusiastically into the work and hope to be given the opportunity next year of broadcasting over our local station.

Mr. Lester is to be congratulated on his untiring work at our weekly Community Singing, which has become an essential part of the musical life of the College.

The Music Committee wishes to record its sincere appreciation of the magnificent gift of two beautiful and valuable violins which were received from Mrs. Howell. It will indeed be a fortunate student who has the use of one of these instruments.

' We should also like to congratulate the following boys who were successful in the examinations conducted by the Conservatorium of Music of Australia:—

- A. Feddersen who, by obtaining Honours in Grade I Pianoforte and Honours Grade III Theory, received the degree of Associate of Music and so has the honour of being the first Collegian to attain that distinction.
- F. W. Robinson who, by obtaining Pass in Grade II Pianoforte and Pass Credit in grade IV Theory, is entitled to one subject for his Intermediate examination.
- I. W. McDonald, Honours Grade III Pianoforte and Honours Grade IV Musical Perception.

G. Bidstrup, Honours Grade V Pianoforte.
 G. Mockridge, Honours Grade VI Pianoforte.
 W. Higgins, Honours Grade VI Pianoforte.

Next year Pandean Pipes will be added to the growing list of musical activities, and boys in the highest form of the Preparatory School will be instructed in making and playing these fascinating instruments.

Science Club.

AT the beginning of the second term the Science Club, well-known in former years, was revived. The following officials for the year were elected: Chairman, W. H. Steel; Treasurer, B. C. McKenzie; Secretary, R. W. K. Honeycombe; Committee, R. Doig and W. Doig.

On Sunday, 20th June, the series of meetings was commenced, Mr. Whorwell giving a very interesting talk on "Animal Biology." On July 4th R. Doig gave an illustrated talk on "Birds"; on July 11th W. H. Steel talked on "Television"; on July 18th a talk on "Astronomy" was given by R. Honeycombe. Short talks were given by W. Doig on "The Electrocardiograph," B. C. McKenzie on "Marconi," F. Pillow on "Radioactivity" and N. A. McKinnon on "The Work of a Modern Observatory." The concluding talk for the term was by Mr. Lester on "Mathematical Fallacies."

During the third term, members heard two very interesting talks. The first was that on "Soil Erosion," given by Mr. Lamble. In the course of his talk, Mr. Lamble stressed the danger of deforestation and bushfires, the bare surface being easily eroded by heavy falls of rain, so that hilly country would be irreparably denuded.

The second lecture was given by Mr. G. Hope of the Cheetham Salt Company. The subject of his talk was "Salt" and his comprehensive discussion of every possible aspect of this valuable substance was thoroughly appreciated by the audience. The Club is very grateful to both Mr. Lamble and Mr. Her- for such interesting talks. Mention, must also be made of the epidiascope which has been an invaluable aid to the lecturers in illustrating their references.

DECEMBER, 1937.

ig

SCIENCE DEMONSTRATION.

On Monday evening, 23rd August, the Science Club held a demonstration which was attended by members of the teaching staff and 50 boys from the Senior School. The programme opened with a liquid air demonstration by Mr. Whorwell. Liquid air boils at -185° Centigrade and must be kept in special vacuum flasks, but while our supply lasted we were able to observe the changes in the properties of everyday substances at that temperature. We can now say that no one would like to be hit on the head with a frozen banana or a lump of mercury.

After the liquid air had all evaporated, B. C. McKenzie and R. Honeycombe demonstrated some chemical effects, such as the foam fire-extinguisher and the fire-proofing of materials. A realistic volcano was exploded and an artificial sunset produced. Demonstrations were also given of cold flame, delayed reactions, dry reactions and heat-sensitive papers. The operators were well assisted by N. A. McKinnon and W. Doig.

Then came the physical section, in which W. H. Steel and R. Doig explained and worked a Sprengel air pump which they had made themselves. They also demonstrated with A.C. and D.C. magnets, the latter capable of lifting 25 lbs. Several types of arc lamps were shown in action, the most interesting one being an arc made between two pencils.

The evening finished with supper in the boarders' sitting room.

List of Experiments:—Liquid air—Kettle boiling on ice; brittleness of flowers, -meat, grapes, bananas, eggs; effect on balloons, mercury, solder coil, alcohol, tin, sulphur, cigarettes.

Chemistry:—Foam fire-extinguisher, volcano, transference of newspaper print, heat sensitive papers, gas pistol, cold flame, artificial sunset, delayed reactions, fire-proofing of materials, pyrophoric zinc, rapid oxidation, cl emi-luminescence, silica garden.

Physical:—D.C. and A.C. magnets, Sprengel vacuum pump, the discharge tube, D.C. and A.C. arc lamps, pencil arc lamp.

THE PEGASUS,

Debating Society.

THIS year the Society was fortunate in having an able successor to Mr. Henderson in Mr. C. F. H. Ipsen, to whom the thanks of all members are due for his helpful advice and encouragement. J. G. McMaster and I. A. H. Turner acted as secretaries and the office-bearers, who were elected at the first general meeting, were: President, Rev. F. W. Rolland; Vice-Presidents, Messrs. S. B. Hamilton-Calvert, T. Henderson, C. F. H. Ipsen, J. H. Campbell, C. F. Whorwell, G. H. Lawton and R. W. K. Honeycombe; Committee, J. K. Aitken, R. K. Doig, T. G. Inglis and R. D. Watson.

The membership of 170 (including 40 Junior House boys) was a marked improvement on last year. Attendances throughout the year were very satisfactory, there being on an average 50 members at each meeting. The standard of speaking was high, and some very interesting and closely contested debates were held. Perhaps the most enthusiastic section of the society was that in Junior House. A sub-committee, composed of Mr. J. H. Campbell and R. D. Watson, was appointed to look after these meetings, and David Woolley was appointed secretary.

Four debates against outside teams were planned, but that against Melbourne Grammar School had to be cancelled. The first debate on the subject "That money spent on armaments is a waste," was held against a team of old-boys—C. C. Baird, K. W. J. Angwin, G. D. Murray and P. J. C. Stretton. The College team, I. H. McPherson, M. M. Crawcour, D. Borthwick and J. G. McMaster, who had the affirmative side, was defeated when the motion was put to the house. A Wesley team, taking the affirmative side of the subject "That science is a menace to civilization," also defeated a College team including J. G. McMaster, K. S. McDowall, A. S. Feddersen and K. L. Menzies. Again the College team, R. K. Doig, I. A. H. Turner and J. E. Richardson, taking the affirmative side of the question "That State Government should be abolished," lost to a team from the Apex Club. Mr. H. I. Crawcour kindly adjudicated at this last debate, and was very constructive in his criticisms.

The Annual Banquet took place on Tuesday, 24th August. Mr. Ipsen presided over the meeting, and welcomed Mr. Hamilton-Calvert. The toasts, which were briefly but ably proposed and responded to,

were as follows: "The King"; "The Society" (J. G. McMaster, I. A. H. Turner); "Sport" (H. W. Stubbs, R. D. Watson); "Dictatorships" (B. C. McKenzie, K. L. Menzies); "The Army" (T. G. Inglis, F. J. H. Moreton); "The Glorious Future" (B. D. Shaw, D. L. Woolley); "Money" (J. K. Aitken, R. Howell); "The Unskilled Labourer" (J. E. Richardson, I. H. McPherson). Mr. Hamilton-Calvert proposed a toast to "Absent Friends," especially remembering Mr. Henderson, and asked that the secretary write to Mr. Henderson, telling him about the banquet.

Miss McRae and her willing staff thoroughly deserve our thanks, which are extended here, for the excellent meal we were given on this occasion, as well as for the suppers provided after the Apex Club and Old Boys debates.

Meditation.

O, let me see once more the Australian bush!
 This lively summer sun has laid its spell
 Upon my winter-whitened, class-room brow,
 Dissolved the coddled fats of foggy days
 And turned thick August blood to sparkling wine,
 Revivifying mind and heart and limb.

Let me be out where tenderly the winds
 Caress the fire-born rocks on whose firm base
 The tangled, temperate jungles live and move,
 Ageless and wise, benevolent and free!

I long to tread those narrow, twisting trails
 Which daze the willing pack-horse; then, beyond,
 Primeval, pathless archways of my God,
 Where verdure's carpet softly beckons prayer,
 Where shy marsupials and friendly birds
 And innocent reptiles have their Paradise;
 Into the fastnesses where child-like streams
 Leap in their haste to find the Mother Deep;
 Up through the heavenward-pointing eucalypts
 Wreathed in fresh creepers (there, in solemn night,
 The rushing, mighty organ music sweeps,
 Reverberating the starry dome);
 And out upon the shimmering mountain top
 When midday mngs its purifying flames—
 So to behold, transfigured, eloquent,
 Land, sky and sea, the loving Architect's
 Omnipotent, omniscient handy ?

Library Notes.

NEXT year will see a great change in the College Library when it will have ceased to be merely a library for the boarders and will become the College Library open to all day bboys as to the boarders. With this in view, it has been thoroughly re-organised during the past few months and now all the reference books are properly shelved and divided up into sections according to subject matter. Boys who will use this reference library—and it is hoped that far more boys in the Sixth forms and the Intermediate form will avail themselves of it than previously—will note that, before reference books are taken from the Library, permission to do so must be obtained from the Master in charge of that subject. For books not belonging to any specified subject on the curriculum, boys will refer to Mr. Ipsen. A catalogue will be kept in the Library along with a borrowers' book in which boys will enter their names and the title of the book borrowed, giving the date on which they take out the book.

May I remind boys how valuable this right use of books is to them. No process other than having to turn up books to find the required information has such a lasting value. Education does not live in the class room; teaching possibly does, but the former lives in a Library and in the willingness of the student to find out things for himself. Thus all aim should be directed to supplement classroom teaching by research work and reading as widely as possible on the matter under study with the intention of linking up all possible sources that have any bearing on the subject.

With regard to the treatment of books it should be the practice of every borrower to look after a book, to guard against loss or damage, and to return it as soon as possible so that others may make use of it. As the looking after of even so few books as are in the library at present entails considerable work, all boys should co-operate with those who give much time to this, and so by their careful use lighten the work involved.

With more funds available in the future than heretofore, we look forward to building up gradually a library that will be indispensable to the boys and will prove an addition of first importance to the

DECEMBER, 1937-

23

College. I must in fairness to our boarders say how little trouble there has been in the past over careless treatment of books, for, looking back over several years now, I can easily count the number lost, and I do not remember any case of wilful damage. Before I close may I express my appreciation of the help of two boys, Alan Feddersen and Warwick Callander, who have each alternate day done their job efficiently without a regret for the time given up to it.

House of Guilds.

WARDEN'S REPORT.

AS usual, the boys who" have worked solidly at one or more crafts have turned out the best work. It is gratifying to see some of these members, who at the start of the year were but beginners, turning out skilled work in their several departments.

In the light leather work section, I should like to see a greater use of the ajlied crafts of pokerwork and decorative design, which can be combined with leatherwork to great advantage, rendering beautiful an article designed primarily for utility.

Photography is a subject demanding great care and considerable technical knowledge; the craft only begins where the taker of casual snaps and the printer of " just so " photographs leaves off. The true photographer branches out and, through his choice of subject matter, the originality of his view, the ability to control and alter his picture, is enabled to produce interesting, artistic work. For this reason we are going to restrict the number of films that a beginner may acquire each term to three. A boy who, in my opinion and that of the guild master, gives proof of photographic ability, may have up to five, if he so desires. A list of such boys will be drawn up at the beginning of 1938.

Much of the success of the week-end hikes can be attributed to the good work of the patrol leaders, whom I should like to congratulate. There are things in hiking that cannot be found in any other sport, recreation or pastime. The freshness of a bush track in the

early morning and the feeling of adventure as you plunge into the forest are incomparable; add to these the glorious opal vistas of hill and dale, river and plain, and it is easy to understand how the hiker is never slow to don boots and pack and head for virgin country.

The spirit of the House of Guilds is a hard thing to define, but it includes a mixture of freedom and responsibility. Freedom is a tasteless thing of which we soon become tired if we do not accept the responsibilities; you should all take your share of keeping the equipment in good order, of seeing that all breakages are reported and that the store is run efficiently. Remember that the House is only yours if you accept the gift; do not be a mere borrower; be active in your help of the council and the rules they have drawn up and you will find that the organisation will help you.

I should like to thank the council for their work during the year, also those friends of the House of Guilds who have helped us in their several ways

R.E.R.

THE RAMBLERS GUILD.

The ramblers were disappointed that the snow hike to Mt. Buller had to be cancelled because of the epidemic in Melbourne, but have had four very successful week-end hikes to Fairhaven camp, near Anglesea, which Mr. and Mrs. Cowan very generously opened to us. These hikes have been a change from everyday school life; each time we have "gone bush" with a vengeance. Very early rising and hiking through rough country have been strenuously enjoyed, but as yet we have been unable to track the elusive Mogg's Creek to its source. For these hikes and for future use tents and sleeping bags have been made, several members being now expert in the use of the sewing-machine.

THE SPECIALISTS' GUILD.

The membership of this guild has increased so much that the council decided to divide it into two separate guilds, the Photography Guild and the Wireless Guild, and since this division even more excellent work has been done-

DECEMBER, 1937-

25

PHOTOGRAPHY.

This has been the most popular craft, and taking into account the number of beginners, the work has been good. The advanced photographers have done good enlargements, some of which the more artistic have coloured. A competition was held during first term, the subject being "Light and Shade in the Cloisters/" and was won by W. A. Morrow. Another competition is being held this term for the best landscape, an enlargement for seniors and a direct print for juniors.

WIRELESS GUILD.

The members of this guild have been the most consistent for the year and have done splendid work. Many crystal sets have been made, and we hope this will lead to the more advanced work as carried out by the more experienced members who have made both short-wave and long-wave sets and established world-wide interests.

COLLECTORS' GUILD.

This guild has held its meetings regularly in the Council Chamber, but its membership has been small. The younger members are keen stamp collectors and find these meetings helpful. The library is well stocked with philatelic literature, monthly journals and up-to-date catalogues. It is surprising that there are not more members interested in this hobby as it can be kept up when boys leave school. We hope that as members become more experienced they will join in the exhibitions and talks and benefit from the system of exchange.

GENERAL CRAFTS.

Leather work is the greatest feature of this Guild; many bridles, belts, camera cases and even lumber jackets have been made and are of a high standard. Other products have been pewter work, basketry, string nets, poker work, book-binding, the weaving of scarves and the construction of fishing rods and boats. The boat builders have been keen and two members have completed a 36 inch racing yacht. We should like to see more interest taken in pottery,

book-binding and engineering. More skill is required for a high standard to be reached in these crafts, but this only makes them the more interesting.

We are very grateful to Mr. Radcliffe, our Warden, Mr. Cook, Mr. Campbell and Mr. Keith, who have devoted so much of their time and labour to the success of this year's work.

R.H.A.W. (Chief Recorder.)

Cadet Notes.

OWING to the cancellation of the vacation at the end of the second term, the Cadet Camp at Queenscliff was attended by almost the full strength of the Corps. Whether this was due to an increased interest in military work or to the desire to escape a greater evil is best known to "the troops" themselves, but the larger numbers present rendered the camp more interesting and made possible a greater variety of work.

The Crows' Nest camp is an ideal site with only one drawback: the restricted area of land available for tactical exercises. We had one disappointment which, however, had its humorous side. After marching to the Rifle Range to carry out firing with the Lewis guns, it was found that two fishing boats were anchored right behind the targets. A few shots fired into Swan Bay, to notify the anglers that there was to be further firing, merely had the effect of making an owner of one boat wade hurriedly ashore and disappear into the scrub, leaving the boats where they were and making the intended shoot impossible.

The various upsets that have occurred during the last part of the year adversely affected our work, and the musketry especially is of a much lower standard than for some years. The House Shooting Competition fired on November 9th resulted in a win for No. 1 Platoon (Shannon House) with the other places filled by No. 3 Platoon (Calvert House), No. 4 Platoon (Morrison House) and No. 2 Platoon (Warrinn House), in that order. Cadet

G. R. Hodges was the best shot with Cpl. I. A. H. Turner only one point behind. The standard was so low that no shooting colours were awarded; this is a very sad state of affairs and is largely due to the difficulty of arranging for practice. The only time available is on Saturday mornings when no other sports fixture is arranged. The light on the Geelong range is very bad in the mornings, and in the second term, when most of the free days occur, fogs frequently make it almost impossible to see the targets even at 200 yards.

The Platoon Competition, decided on the monthly tests in drill, general turn out and rifle inspection, and also on the average Platoon score in the Musketry Course, was won by the Calvert Platoon.

Results:—

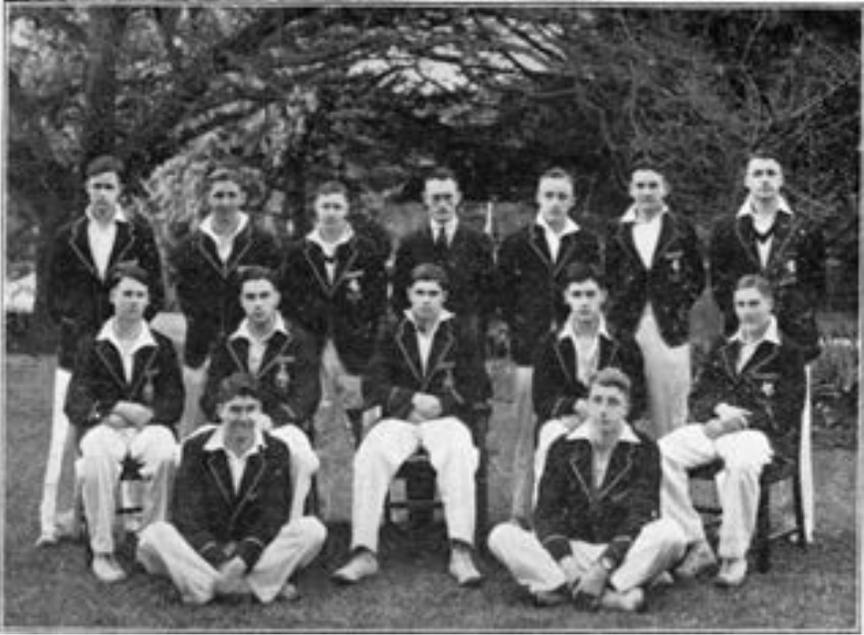

1. No. 3 Platoon, Calvert House 209 pts.
2. No. 1 Platoon, Shannon House 204 pts.
3. No. 4 Platoon, Morrison House 188 pts.
4. No. 2 Platoon, Warrinn House 187 pts.

From the point of view of the Corps, a return to the arrangements of 1936 would be a great improvement, as by this the whole of Tuesday afternoon would be given up to drill and range practices under much more favourable conditions than those that exist on Saturday morning.

Scholarship Awards.

THE following scholarship awards for 1938 are announced:—Stuart Murray scholarship: J. K. Steel, H. G. Badger. Hume Robertson memorial scholarship: D. J. McKenzie. H. V. McKay scholarship: M. I. Souter. James Boyd scholarships: Under 16, N. A. McKinnon, D. I. Donaldson; Under 14, C. N. L. Birrell, G. F. Bidstrup; Under 12, T. B. Howells, G. I. Cherry; Under 10, H. S. Michael, M. J. Woodward; Under 9, N. J. Young. Foundation scholarships: Under 16, D. J. McKenzie; Under 14, M. J. Feddersen, P. W. Sanders; Under 12, L. W. Kendrick. Mrs. Venters scholarship: R. G. Webster. A. D. Guthrie memorial scholarship: D. W. Campbell.

First XVIII Trip to Bendigo, 1937.

On the afternoon of August 19th the First XVIII, officials and supporters, accompanied by Mr. V. H. Profitt and Mr. J. H. Campbell, set out by bus for Bendigo. The journey was pleasant, the scenery around Bacchus Marsh being particularly admired by all. We reached our destination about 10 p.m.

Next morning, in driving rain, we went to the Town Hall, where a Civic Reception was accorded us. The Mayor, Cr. Bolton, warmly welcomed the team in an interesting speech; in response, Mr. Profitt

and Mr. Campbell thanked His Worship, and Inglis said a few words on behalf of the team. At the conclusion of the ceremony, we signed the Visitors' Book in which were many famous names including those of our present King and Queen. Despite the rain, we had a light training run on the Upper Reserve during the latter part of the afternoon. In the evening some of us went to station 3BO, where we were shown over the studio and, before the microphone, the announcer and Mr. Profitt discussed prospects for the morrow; afterwards, a quiet evening was spent at a picture show.

On Saturday morning came the big adventure for most of us—going down a gold mine. We visited the "New Red, White and Blue" mine, one of the largest in Bendigo. Jumping in the cage, we went down, down, through the dank, dripping timbers of the narrow shaft, to a point 756 feet below the surface. Here we got out and stumbled along dark passages, lighted only by our own candles, passing small trucks loaded with quartz travelling to the main shaft. On our way we came to a tremendous cavity, roughly pyramidal in shape and about 100 feet high, from which had been hewn the quartz "saddle reef," an intrusion between the folds of rocks in an anticline. Coming to a section where the miners were working, we could see faint specks of the precious ore in the quartz which is taken out by blasting and pneumatic drill, both of which were seen in operation. On the surface we were shown the stampers at work crushing the ore, the sprinklings of gold on the zinc plates, the cyaniding of the sand and the winding engine. Some of us were fortunate enough to obtain specimens.

As a curtain-raiser to a senior match in the afternoon, the College met the Sandhurst Juniors, a team with an imposing record of victories over the last few years. The match was played in good spirit and some clever football was witnessed. In the first half of the game a handy lead was earned for the College by its speed, aerial supremacy and accurate kicking. Sandhurst, however, rallied well in the third term to reduce the leeway considerably. In the final quarter, College held off the opponents and won comfortably, final scores being—College, 11—12 (78 points); Sandhurst Juniors, 7—9 (51 points).

Following our own game we watched the senior semi-final between Sandhurst and Rochester. Leaving Bendigo after the match, we arrived back in Geelong some hours later, tired but happy. The trip

was undoubtedly a great success in every way. Every member of the party enjoyed himself thoroughly and appreciated the generous hospitality of the Bendigo people, many of them old friends of Mr. Profitt. It would be a fine thing if such an excursion could be arranged at the end of the football season each year, as pleasant memories of this trip will long be cherished by all who took part.

N.G.S.

Kindergarten Notes.

WE are coming to the close of another year, and to those boys who have been promoted to the Preparatory School we send our best wishes. We also hope that our three new boys have been very happy with us.

We wish to thank the College Council for our new building, a cloakroom, the completion of which has brought joy to those who have watched its erection so eagerly.

The main activity this term has been centred round 'our sports.' The boys practised hard and we congratulate D. Salmon, R. Cooke and B. Jacobs on their success. School work has been carried on steadily, great interest and enthusiasm making the days pass very quickly. The boys were delighted with a visit from Colonel Weddell of the Northern Territory. A picnic was held at Queen's Park, where our cricketers and golfers had an enjoyable day.

And now to you all we send best wishes for the New Year, from The Kindergarten.

Preparatory School Notes.

DESPITE the fact that a "dread demon" on the horizon has forced us to forego our usual visits to industrial centres of interest round Geelong, we have found plenty of interests within our own boundaries to keep us fully occupied.

DECEMBER, 1937.

3i

Football demanded our attention during second term. Intermittently, with our practice we had matches with Bostock House and Ivanhoe Grammar School. In the Bostock House Match we were second, but were able to improve on this against Ivanhoe. We also had matches with St. Joseph's, High School and the Second Under Fourteen team from the Senior School.

As the second term holidays were cancelled we found it hard to distinguish between second and third terms until one morning we awoke to find that we were the sole occupants of a very comfortable hotel at Anglesea and free to wander in the bush or enjoy ourselves by the sea as we felt disposed. The week there passed all too quickly and we were loath to leave our new home, but as the stern realities of life must be faced even by small boys, back we came to School, ready to work and prepared to feast on the memories of a most enjoyable break.

Third term found us making every effort to develop wind and limb in preparation for the Sports Meeting in October. We were rewarded for our efforts by having an ideal day as far as weather conditions were concerned and one of the most interesting meetings we have had for years. The last race of the day decided the House Competition in favour of Pegasus.

Following close on the heels of Athletics came Cricket, and House Practice was well in hand when the afore-mentioned "demon" came to our own town and we were forced to abandon sport and even school work a few weeks before the close of the year.

Quite a number of activities was planned for third term. The Dramatic Society under Mr. Home's able guidance was making good progress with the play, "Peter Pan." The School Choir and the Kindergarten Percussion Band have occupied most of Mr. Logie Smith's spare time practising for a concert which had to be abandoned. The Junior House Choir was making preparation for a concert which was to be given over the air. Unfortunately all these happenings will now have to be postponed till next year.

SPORT.

SPORTS HONOUR AWARDS FOR 1937.

Cricket—

Re-awarded—T. G. Inglis, J. L. Calhoun; New awards—R. J. O'Connor, J. R. Cooper.

Football—

Re-awarded—T. G. Inglis, R. D. Watson, J. B. Gough, T. H. Kelsall, J. A. Forbes. New awards—R. J. O'Connor, I. H. McPherson, J. W. Callander, J. L. Calhoun, T. T. Laidlaw, J. D. Lamb, A. G. Duffield.

Rowing—

Re-awarded—T. H. Kelsall, J. A. Forbes, T. M. Collins. New awards—F. J. H. Moreton, I. H. McPherson.

Athletics—No awards,

SCHOOL COLOURS 1937.

Cricket—J. R. Cooper, J. D. Lamb.

Football—C. M. Carmichael, J. D. Baines, A. G. Duffield, K. S. McDowall, R. H. A. Wettenhall, R. J. Gough, J. D. Lamb.

Rowing—I. H. McPherson, F. J. H. Moreton, T. T. Laidlaw, K. S. McDowall, R. H. A. Wettenhall.

Athletics—J. S. Rolland, I. H. McPherson, D. W. P. Borthwick, J. L. Calhoun.

Football.

THE new oval was in use for football practice this season; it proved excellent and saved trips to Queen's Park by the junior teams.

Owing to there being no holidays, a football competition was held; twenty teams, each consisting of six members, were chosen, and competed in goal-kicking and distance kicking. The team captained by J. Lamb won the contests. The longest kick was that of T. T. Laidlaw, who reached 57 yards, while R. D. Watson, J. Roydhouse and W. Dunn scored full points for accuracy.

FIRST XVIII.

This year's practice matches were even more successful than last year's as the XVIII had only one defeat. The team was the strongest combination for several seasons, although it was light and at first rather inexperienced. Throughout the season the team gave an excellent display of football. For this we must again congratulate Mr. V. H. Profitt on his thorough coaching, T. G. Inglis was elected captain and R. D. Watson vice-captain.

Unfortunately, the 4th and 5th rounds of the Public School Matches had to be abandoned owing to the outbreak of infantile paralysis, but it seems most likely that Melbourne Grammar would have been premiers, followed by Geelong College and Xavier.

PUBLIC SCHOOLS PREMIERSHIP TABLE, 1937.

	P.	W.	L.	Pts.
Melbourne Grammar School	3	3	—	12
Geelong College	4	3	1	12
Scotch College	3	2	1	8
Xavier College	3	2	1	8
Geelong Grammar School	4	—	4	—
Wesley College	3	—	3	—

G.C. v. S.C.

Played at Kardinia Park, July 2nd.

Won by Geelong College by 5 points.

Geelong College team:—

Backs—Duffield, Calhoun, Gough, J. B.

Half-backs—Kelsall, Callander, McPherson.

Centres—Wettenhall, Lamb, Sutherland.

Half-forwards—O'Connor, Carmichael, Baines.

Forwards—Gough, R. J.; Inglis, Cooper.

Rucks—Forbes, McDowall

Rover—Watson.

Scores:—

	1st qr.	2nd qr.	3rd qr.	Final	Pts.

DECEMBER, 1937-

35

FOOTBALL TEAM, 1937.

C. M. Carmichael, R. J. Gough, N. G. Sutherland, T. T. Laidlaw, Mr. V. H. Profitt,
 A. G. Duffield, J. D. Lamb, J. D. Baines, J. W. Callander.
 I. H. McPherson, J. L. Calhoun, R. D. Watson (Vice-Capt.), T. G. Inglis (Capt.),
 T. H. Kelsall, J. B. Gough, J. A. Forbes.
 J. R. Cooper, R. J. O'Connor, R. H. A. Wettenhall, K. S. McDowall.

In the first quarter the play was mostly on our forward line but little scoring resulted. Scotch, however, when they did have the ball forward, made good use of their opportunities, although many attacks were repulsed by the College backs.

In the second quarter College started better but did not kick well for goal. Scotch did not score much until near the end of the quarter, when they added several goals and increased their lead.

After half-time the College team more than held its own, and better team work was responsible for the reduction of Scotch's lead to seventeen points.

In the final quarter the College team won everywhere and benefited by several changes in position. Amid great excitement the Scotch College score was passed. A five-point lead was lost before the bell, but another goal by Inglis gave the College victory.

Best players for College:—Inglis (roving and forward), Gough, J. B. (back), Forbes (ruck), Calhoun (back), Watson (roving and half-back).

Goal Kickers:—Inglis 4, Forbes 2, Watson, Gough, R. J. and Lamb.

G.C. v. M.G.S.

Played at Kardinia Park, July 9th.

Won by Melbourne Grammar School by 22 points.

Scores:—

	1st qr.	2nd. qr.	3rd qr.	Final	Pts.
M.G.S.:	4—1	7—11	9—15	10—17	77
G.C.:	1—2	4—6	5—6	7—13	55

This match promised to be a hard trial for Geelong College, as Melbourne Grammar, champions for the last three years, again had a strong team. Our side was the same as for the Scotch match except that Laidlaw, who had been suffering from an injury, was included in place of Cooper.

The play was even in the opening stages; Melbourne Grammar settled down first and with some long kicking and better marking, soon established a lead. College were kicking badly at first, but played better in the second quarter, matching their opponents' game with vigour and speed. Several of the younger players seemed more confident than in the preceding match. Melbourne were keeping the game fast and open by excellent handball and clever passing from the centre to the right wing, but the College back line cleared the goal time and time again. Though often beaten in the air and in handball, College were generally superior in ground play.

After quarter time the scoring was very even, although low, due to effective work by both back lines. In the last quarter College appeared fresh and, scoring a goal right at the start, seemed likely to get the necessary 15 points. They did not break away again, however, until the last five minutes, when hurried kicking forward added little to the score. Melbourne Grammar were then able to crowd the game, and deservedly won a hard-fought match.

The play of the College full-back line—Gough, Calhoun and Duffield, was outstanding, for they were never mastered by their opponents. O'Connor and Inglis, who shared roving, both played a dashing game, and Watson on the half-back wing was also conspicuous, but the play of the whole team was good after quarter time.

Goal kickers for College:—Callander (2), Carmichael (2), Inglis (2), J. Lamb (1).

G.C. v. W.C

Played at Olympic Park, July 16th.

Won by G.C. by 11 points.

Scores:—

	1st qr.	2nd qr.	3rd qr.	Final	Pts.
G.C—	3—8	3—9	10—19	12—21	93
W.C—	—	5—5	6—5	12—10	82

College fielded the same eighteen as in the preceding match. What should have been a fine game of football was marred by the strong wind blowing down the field. College won the toss and kicked with the wind, but did not take full advantage of it until the quarter was well advanced. The kicking for goal was again faulty, but Wesley were kicking too high into the wind and failed to penetrate the College defence.

Keeping well to their men, College held the play at the start of the second quarter, and Wesley did not score for some time. After they had broken away, College launched another offensive, but could not prevent Wesley from leading at half-time.

The wind dropped somewhat after the interval and Wesley scored the first goal against it. But as the quarter progressed, College gained supremacy on the ground and in the air, and put on a substantial lead which they increased in the final quarter. Wesley appeared tired, but when eight goals behind they rallied finely and started to score rapidly, being only 11 points down at the bell.

Inglis was again among the outstanding players and Gough was conspicuous on the back line. Laidlaw (centre), Kelsall and Watson (half-back) and Carmichael (half-forward) also played well.

Goal kickers:—

G.C.—Inglis (7), Carmichael (2), Laidlaw, Watson and Lamb.
 W.C.—Thomas (5), Loxton (3), Barton (3) and Parnaby.

G.C. v. G.G.S.

Played at Kardinia Park, Friday, July 30th.

Won by Geelong College by 82 points.

Scores:—

	1st qr.	2nd qr.	3rd qr.	Final	Pts.
G.C.—	6—2	10—7	14—9	20—18	138
G.G.S.—	2—1	2—1	7—6	8—8	56

Once again there was no change in the College team. Owing to the epidemic in Melbourne, this was the last game of the season; indeed the Melbourne schools did not play the round.

At first scoring was even, but as the quarter progressed College drew ahead with better marking and kicking and more co-operation than their opponents. The College kicking for goal was showing a great improvement on previous matches.

College increased their score in the second quarter and drew well ahead. The game was not so unequal as the scores seemed to show, for Grammar made many vigorous attacks, giving the College back lines a strenuous time,

Grammar made a determined effort after half time and launched many strong attacks, mainly due to the good work of Hawthorne at centre. College, however, never let their opponents break away, and in the last quarter again increased their lead, winning by 82 points.

Once again Inglis was outstanding for the College. Kelsall was prominent on the half-back line, while Forbes and McDowall played strongly in ruck. Watson and Callander did well at half-forward.

Goal kickers:—

G.C.—Inglis (9), Lamb (5), R. Gough, Laidlaw, Carmichael, McDowall, Callander and O'Connor.

G.G.S.—Angas (3), McPhail (2), Dight, Russell and Stephens.

FIRST XVIII PRACTICE MATCHES.

June 5th—G.C, 10—15 d. Scotch College, 7—10.

June 12th—Melbourne Grammar, 11—11 d. G.C, 5—11.

June 16th—G.C, 19—15 d. Gordon Institute, 4—5.

June 19th—G.C, 11—8 d. Wesley College, 10—5.

June 23rd—G.C, 11—13 d. Queenscliff Garrison, 6—12.

June 26th—G.C, 10—15 d. Geelong Grammar, 10—5.

August 7th—G.C. (Shannon and Warrinn), 7—12 d. Ford Motor Company Staff, 4—6.

2nd XVIII.

The Seconds played ten matches this season, winning three and having only two bad defeats recorded against them. This team had an able captain in B. C McKenzie, with T. J. Forsyth as vice-captain. Mr. J. H. Campbell again coached them throughout the season. Most consistent players were McKenzie, Forsyth, Rolland, D. Dennis, B. O'Connor, R. B. Brown, Badger and S. Lamb.

Results:—

- June 5th—Scotch College, 7—17 d. G.C., 7—5.
- June 12th—Melbourne Grammar, 12—16 d. G.C., 2—2.
- June 16th—G.C., 6—8 d. Gordon Institute, 2—7.
- June 19th—G.C., 9—11 d. Wesley College, 0—9.
- June 26th—Geelong Grammar, 6—9 d. G.C., 3—4.
- July 3rd—Scotch College, 12—19 d. G.C., 1—5.
- July 8th—G.C., 11—11 d. Geelong High School, 6—5.
- July 10th—Melbourne Grammar, 7—6 d. G.C., 3—1.
- July 17th—Wesley College, 11—11 d. G.C., 8—10.
- July 31st—Geelong Grammar, 10—13 d. G.C., 5—8.

THIRD XVIII.

The Thirds enjoyed a successful season, winning most of their matches. R. A. Cook was captain, J. S. Davidson vice-captain, and Mr. Rusden coach. Mr. Rusden also coached the Fourths and Fifths. Best players throughout the season for the Thirds were—Cook, J. S. Davidson, Douglas, Murray, Edgar and Morrow.

Results:—

- June 5th—G.C., 6—18 d. Scotch College, 0—1.
- June 12th—Melbourne Grammar, 3—2 d. G.C., 1—6.
- June 19th—G.C., 8—5 d. Wesley College, 7—5.
- June 26th—Geelong Grammar, 9—9 d. G.C., 6—4.
- July 3rd—G.C., 9—12 d. Scotch College, 5—6.
- July 17th—G.C., 8—12 d. Wesley College, 2—6.
- July 31st—Geelong Grammar, 8—6 d. G.C., 3—4.

FOURTH XVIII.

Results:—

- June 26th—Geelong Grammar, 5—5 d. G.C., 4—5.
- July 31st—G.C., 7—7 d. Geelong Grammar, 5—15.

FIFTH XVIII.

Results:—

- July 31st—G.C., 2—1 d. Geelong Grammar, 0—4.

DECEMBER, 1937.

41

UNDER 15A.

Mr. Lester coached the Under 15 team this year; J. Cooper was captain and J. F. Doery vice-captain. The team won three of the ten matches played. The season's most consistent players were Cooper, Doery, N. Williams, R. TL McKenzie, J. C. Stewart and I. Hope.

Results:—

- May 29th—G.C., 8—10 d. St. Joseph's, 2—5.
- June 5th—Scotch College, 22—15 d. G.C., 3—8.
- June 12th—Melbourne Grammar, 9—15 d. G.C., 3—3.
- June 19th—Wesley College, 11—9 d. G.C., 4—3.
- June 26th—Geelong Grammar, 9—9 d. G.C., 6—9.
- July 3rd—Scotch College, 10—16 d. G.C., 6—5.
- July 10th—G.C., 7—13 d. Melbourne Grammar, 6—10.
- July 17th—Wesley College, 8—9 d. G.C., 4—3.
- July 31st—G.C., 8—15 d. Geelong Grammar, 6—9.
- August 7th—St. Joseph's, 5—9 d. G.C., 4—7.

The Under 15B team won one of the two matches played against Geelong Grammar.

UNDER 14A.

The Under 14 had a very successful season, being coached by Mr. G. H. Lawton, captained by K. O. Gough and vice-captained by A. Howells. They won six of the eight matches played.

Results:—

- June 5th—G.C., 17—8 d. Scotch College, 6—8.
- June 12th—G.C., 17—29 d. Melbourne Grammar, 5—0.
- June 19th—Wesley College, 7—4 d. G.C., 5—6.
- June 26th—G.C., 14—20 d. Geelong Grammar, 5—1.
- July 3rd—G.C., 13—17 d. Scotch College, 11—4.
- July 8th—G.C., 11—8 d. Geelong High, 7—5.
- July 17th—Wesley College, 6—9 d. G.C., 5—7.
- July 20th—G.C., 14—11 d. St. Joseph's, 3—6.

Best players throughout the season were Gough, Howells, Souter, Anderson and Gilmore.

The Under 14B played only one match, and won.

THE PEGASUS , HOUSE FOOTBALL.

Although the results were not as even as usual, play was of a much higher standard than has been seen for some years. Warrinn were much too strong for the other teams, having the full side selected from the College 1st and 2nd eighteens.

It was decided to reintroduce House 2nd teams, and this proved a very successful revival.

First **XVIII** Results :—

Warrinn, 15—24, d. Shannon, 3—0.
 Calvert, 15—12, d. Morrison, 9—8.
 Warrinn, 20—22, d. Morrison, 0—5.
 Calvert, 17—7, d. Shannon, 4—5.
 Warrinn, 17—12, d. Calvert, 9—8.
 Shannon, 7—13, drew with Morrison, 8—7.

In the 2nd XVIII matches, Warrinn were again too strong, winning every game and assisting the House to an easy victory.

Total points, 1st and 2nd XVIII matches:—Warrinn, 15; Calvert, 9; Shannon, 4; Morrison, 2.

House Sports.

This year we abandoned the usual custom of conducting the House Sports on a Saturday; they were held on Friday, October 8th, and we were fortunate in having warm, clear weather. Mr. Profitt acted as starter and members of the teaching staff, Mr. J. Kroger, Mr. A. Shannon and Mr. F. Band were the other officials. During the day two records were broken; in the Weight Putt, J. L. Calhoun (W) covered 39 feet 9| inches, and in the Under 14 High Jump, K. O. Gough (M) reached 4 feet 11 inches

Calvert House emerged victorious, but was closely followed by Shannon, who kept the result in doubt until the very last event. The final placings were:—Calvert House, 100 2—5th points, 1; Shannon, House, 97½ points, 2; Morrison House, 72 2—5th points, 3; Warrinn House, 71 7—10th points, 4.

Results:—

THE PEGASUS,

School Sports.

ALTHOUGH a large attendance of friends of the School was not possible, the College Sports, held on Thursday, October 21st, were very successful. Large fields took part in every event and the standard of running was quite as high as usual, the credit for this being due to Mr. J. Kroger, whose excellent coaching helped so many competitors. Our thanks are also due to Mr. Jas. D'Helin and Mr. A. N. Shannon who, as starters, were as efficient as ever. Mr. V. H. Profitt acted as referee, assisted by Mr. S. B. Hamilton-Calvert, Mr. F. G. Band, members of the College staff and students.

N. G. Sutherland performed well to win the College Cup, with R. D. Watson and I. H. McPherson filling second place. The Under 16, Under 15, and Under 14 championships were won by B. O'Connor, I. Hope, and K. O. Gough respectively.

The following are the results of all events decided prior to and on the day of the sports:—

CHAMPIONSHIP EVENTS.

Geelong College Cup.

- LONG JUMP—R. D. Watson, 1; N. G. Sutherland, 2; I. H. McPherson, 3; J. S. Rolland, 4. Distance—18 ft. 7½ ins.
 WEIGHT PUTT—R. D. Watson, 1; I. H. McPherson, 2; N. G. Sutherland, 3; T. H. Kelsall, 4. Distance—37 ft 4¼ ins.
 ONE MILE—J. S. Rolland and R. H. A. Wettenhall, seq. 1; N. G. Sutherland, 3; I. H. McPherson, 4. Time—5 mins. 34 2/5 secs.
 440 YARDS—N. G. Sutherland, 1; J. S. Rolland, 2; R. D. Watson, 3; R. H. A. Wettenhall, 4. Time—53 3/5 secs.
 120 YARDS, HURDLES—I. H. McPherson, 1; T. H. Kelsall, 2; R. D. Watson, 3; N. G. Sutherland, 4. Time—17 secs.
 100 YARDS—N. G. Sutherland, 1; R. D. Watson, 2; I. H. McPherson, 3; J. Rolland, 4. Time—10 2/5 secs.
 HIGH JUMP—T. H. Kelsall, 1; I. H. McPherson, 2; N. G. Sutherland, 3; J. S. Rolland, 4. Height—5 ft. 2¼ ins.
 220 YARDS—N. G. Sutherland, 1; R. D. Watson, 2; I. H. McPherson, 3; J. S. Rolland, 4. Time—25 secs.
 880 YARDS—R. H. A. Wettenhall, 1; J. S. Rolland, 2; I. H. McPherson, 3; T. H. Kelsall, 4. Time—2 mins. 18 secs.

Total Points—

N. G. Sutherland,	25 points	1
I. H. McPherson,	20	Points	aeq 2
R. D. Watson,

NOVELTY SECTION.

- MANX RACE—J. Ewart and W. K. McKenzie, i; D. J. McKenzie and A. N. Drury, 2; R. Edgar and B. Vanrenen, 3.
 SACK RACE—K. C. McKenzie, 1; A. N. Drury, 2; P. Hall, 3.
 EGG AND SPOON RACE—R. J. K. Russell, 1.

OTHER EVENTS.

- UNDER 14 HANDICAP (120 YARDS)—J. Lupton, 1; R. A. Robinson, 2; J. T. Cowan, 3. Time—14 3/5 secs.
 UNDER 14 HANDICAP (75 YARDS)—R. A. Robinson, 1; J. S. Lupton, 2; A. M. Lowe, 3. Time—9 1/5 secs.

- UNDER 13 HANDICAP (100 YARDS)—P. Grutzner and D. Drury, asq. 1; B. Bishop, 3. Time—12 4/5 secs.
 120 YARDS HURDLES (OPEN HANDICAP)—I. H. McPherson, 1; T. H. Kelsall, 2; R. H. A. Wettenhall, 3. Time—18 2/5 secs.
 UNDER 15 HANDICAP (100 YARDS)—J. Ferguson, 1; H. J. G. Stewart, 2; I. Hope, 3. Time—12 1/5 secs.
 UNDER 15 HANDICAP (220 YARDS)—F. H. Davey, 1; I. Hope, 2; H. J. G. Stewart, 3. Time—28 1/2 secs.
 UNDER 16 HANDICAP (880 YARDS)—Presented by Dr. John R. Heath—A. L. Fewster, 1; G. R. Hodges and F. P. Just, eq. 2. Time—2 mins. 25 secs.
 OPEN HANDICAP, 150 YARDS (Presented by Dr. R. H. Morrison)—T. D. Dowling, 1; D. J. A. Dennis, 2; C. M. Carmichael, 3. Time—16 secs.
 UNDER 16 HANDICAP, 100 YARDS HURDLES—B. O'Connor, 1; J. A. Roberts, 2; J. H. G. Watson, 3. Time—16 3/5 secs.
 440 YARDS STEEPLECHASE, OPEN HANDICAP (Presented by Mrs. W. A. Waugh)—D. Borthwick, 1; C. Yates, 2; W. Higgins, 3. Time—1 min. 10 2/5 secs.

Preparatory School Sports.

THE Preparatory School Sports were held on the College Oval on Wednesday, the 27th of October. The weather was perfect and a pleasant afternoon was spent by the parents and friends who were present.

Thanks are extended to all those who helped in any way to make the afternoon a success.

PREPARATORY SCHOOL CHAMPIONSHIP.

- 75 YARDS—A. Browne, 1; D. Woolley, 2; D. Hope-Johnstone, 3. Time—10 secs.
 100 YARDS—A. Browne, 1; D. Woolley, 2; D. Hope-Johnstone, 3. Time—12 3/5 secs. (Record).
 220 YARDS—A. Browne, 1; D. Woolley, 2; D. Hope-Johnstone, 3. Time—30 2/5 secs.
 HIGH JUMP—D. Woolley, 1; H. Lade, 2; K. Kelsall, 3. Height—4 ft. 7 1/2 ins. (Record).
 LONG JUMP—A. Browne, 1; J. Morrison, 2; H. Lade, 3. Distance—14 ft. 5 ins.

Total Points—

A. Browne, 12 points	1
D. Woolley, 9 points	2

UNDER 13 CHAMPIONSHIP.

- 75 YARDS—P. Grutzner, 1; D. Drury, 2; N. Jacobs, 3. Time—10 secs. (aeq. Record).
 100 YARDS—D. Drury, 1; P. Grutzner, 2; N. Jacobs, 3. Time—13 4/5 secs.
 HIGH JUMP—I. Murdoch, 1; B. Bishop, 2; W. Watkins, 3. Height—4 ft. 1 1/2 ins.
 LONG JUMP—P. Grutzner, 1; W. Watkins, 2; N. Jacobs, 3. Distance—12 ft. 1 in.

Total Points—

P. Grutzner, 8 points	1
D. Drury, 5 points	2

UNDER 12 CHAMPIONSHIP.

75 YARDS—T. MacBride, 1; N. Milne, 2; L. Kendrick, 3. Time—10 3/5 secs. (seq. Record).

100 YARDS—T. MacBride, 1; L. Kendrick, 2; I. Morrison, 3. Time—14 2/5 secs.

HIGH JUMP—G. Cook, and N. Milne, aeq. 1; I. Morrison, 3. Height—3 ft.10½ ins.

LONG JUMP—I. Morrison, 1; N. Milne, 2; A. Coles, 3. Distance—11 ft. 11 ins.

Total Points—

N. Milne, 6 points	1
T. MacBride, 6 points	2

UNDER 11 CHAMPIONSHIP.

75 YARDS—T. MacBride, 1; N. Milne, 2; J. Douglas, 3. Time—10 3/5 secs.

100 YARDS—T. MacBride, 1; J. Douglas, 2; N. Milne, 3. Time—13 4/5 secs.

Total Points—

T. MacBride, 6 points	1
N. Milne, and J. Douglas, 3 points, seq	2

Milne won the run-off at 75 yards.

UNDER 10 CHAMPIONSHIP.

75 YARDS—D. Sefton, 1; R. Mockridge, 2; J. Borthwick, 3. Time—11 1/5 secs. (seq. Record).

100 YARDS—R. Mockridge, 1; D. Sefton, 2; J. Borthwick, 3. Time—14 2/5 secs. (seq. Record).

Total Points—

R. Mockridge, 3 points	1
D. Sefton, 3 points	2

Mockridge won the run-off at 75 yards.

HOUSE RESULTS—

Pegasus, 61 points	1
Bellerophon, 59 points	2

HANDICAP EVENTS.

100 YARDS OPEN—D. Hope-Johnstone, 1; C. Blair, 2; A. Browne, 3. Time—12 2/5 secs.

100 YARDS UNDER 13—D. Drury, 1; N. Jacobs, 2; J. Shuter, 3. Time—14 secs.

100 YARDS UNDER 12—G. Mockridge, 1; T. MacBride, 2; I. Morrison, 3. Time—13 3/5 secs.

100 YARDS UNDER 11—G. Mockridge, 1; M. Gillet, 2; T. MacBride, 3. Time—14 secs.

50 YARDS UNDER 9—J. Cruickshank, 1; D. Salmon, 2; G. Neilson, 3. Time—8 secs.

50 YARDS UNDER 7—B. Jacobs, 1; J. Fairnie, 2; R. Keith, 3. Time—9 secs.

OLD BOYS' RACE—W. Higgins, 1; G. Phillips, 2; B. O'Connor, 3. Time—12 1/5 secs.

NOVELTY EVENTS.

EGG AND SPOON RACES, OPEN—J. Flannery, 1; D. Hope-Johnstone, 2; R. Fullagar, 3. UNDER n—D. Sefton, 1; C. Disney, 2. UNDER 9—N. Everist, 1; R. Purnell, 2; J. Salmon, 3.

POTATO RACES, OPEN—K. Kelsall, 1; J. Flannery, 2; D. Drury, 3. UNDER 11—M. Gillet, 1; T. MacBride, 2; G. Tippet, 3. UNDER 9—J. Borthwick, 1; J. Cruickshank, 2; N. Young, 3.
 SACK RACE, OPEN—G. Cumming, 1; A. Browne, 1; K. Kelsall, 3. UNDER 11—J. Borthwick, 1; R. Mockridge, 2; J. Douglas, 3.
 OBSTACLE RACE—D. Todd, 1; J. Flannery, 2.
 MANX RACE—D. Salmon and R. Cook, 1; R. Fullagar and P. Eaton, 2; C. Blair and K. Ashworth, 3.
 KINDERGARTEN FLAG RACE—Green, 1; Gold, 2.

HOUSE FLAG RACES,

OPEN—Pegasus, 1; Bellerophon, 2.
 UNDER 12—Pegasus and Bellerophon, seq. 1.
 UNDER 10—Pegasus, 1; Bellerophon, 2.

Combined Public School Sports.

DESPITE the absence of the two Geelong Schools, a large crowd attended the Melbourne Cricket Ground on Saturday, October 30th for the Combined Sports. Weather conditions were perfect except for a following wind which assisted the sprinters and hurdlers.

The outstanding performer was J. L. Swan (S.C.), whose record breaking effort of 5 ft. 8 3-8th ins. in the Under 16 High Jump was coupled with a splendid win in the Long Jump. The most impressive sprinter was R. A. Shmith (W.C.), who won the 100 yards and 220 yards Under 16. In the 100 yards he equalled the record of J. F. Fallon, who gained his third successive victory in the Open 100 yards. Only the judges could separate the four competitors in the 120 yards hurdles. C. W. Wilson (W.C.) winning one of the best finishes in the history of the race. T. M. Gunn (M.G.S.) had an impressive victory in the open 880 yards, while his school mate H. J. Harrison ran a well judged race to win the mile. After a great afternoon's sport Melbourne Grammar School regained the challenge cup.

The final placings were:—

Melbourne Grammar School, 44 points	1
Scotch College, 31 points	2
Wesley College, 28 points	3
Xavier College, 23 points	4

We share with Geelong Grammar School, who won the cup in 1936, their disappointment at not being able to compete this year. To Melbourne Grammar we extend our congratulations on again winning the athletic premiership.

The following would have been the team to represent the College had we competed in the Combined Sports:—Open: 100, 220 and 440 yards—N. G. Sutherland; 880 yards—J. S. Rolland; One Mile—R. H. A. Wettenhall; 120 yards Hurdles—I. H. McPherson; High Jump—D. W. P. Borthwick; Long Jump—R. D. Watson; Weight Putt—J. L. Calhoun. Under 16: 100 yards—J. R. Cooper; 220 yards—K. L. Menzies; 100 yards Hurdles—B. O. O'Connor; High Jump—J. H. G. Watson; Long Jump—C. J. Dykes. Under 15: 100 and 220 yards—I. Hope. Under 14: 100 yards and High Jump—K. O. Gough.

Athletic Contest with St. Joseph's College.

PARTLY because we did not send a team to compete at the Combined Sports and partly to allow boys another opportunity to attack existing records, a contest with St. Joseph's was arranged after school on Thursday 28th and Friday 29th of October. Except for a fairly strong wind which assisted the sprinters the weather was ideal. Although the College finished with a good lead on points, some close finishes were witnessed, especially in the under-age events, where the points were very evenly divided.

Our outstanding representative was N. G. Sutherland who won the open 100, 220 and 440 yards in times which compare favourably with those recorded by other schools this season. By registering 40 ft. 11½ ins. in the Open Weight Putt, J. L. Calhoun improved on his own record established earlier in the season. The only other record broken was for the Under 16 High Jump, which J. H. G. Watson raised to 5 ft. 3¼ ins. R. H. A. Wettenhall showed that he has regained his form of last year by the convincing manner in which he won the 380 yards and mile.

Collegians' Scholarship Successes.

W. H. Steel and R. K. Doig are to be congratulated on their fine performance in the examinations conducted recently by Ormond College, University of Melbourne. Steel won a Foundation Scholarship with first place in Physics and Chemistry, while Doig secured a major Resident Scholarship for Chemistry and Mathematics.

DECEMBER, 1937.

Rowing Notes.

QUITE a lot of rowing has been done since the Boat Race, and one noticeable feature has been the extreme popularity of the sculling boats. Mr. Saleh, to whom we are greatly indebted for his coaching, advocates this side of rowing, and those returning next year have spent much time in these craft.

Although necessary restrictions caused the cancellation of the House and School Regattas, the nucleus of next year's crew was afloat a few times and gives promise of a strong and heavy combination.

THE CREW, 1937.

T. M. Collins, F. J. H. Moreton, Mr. Chas. Saleh (Coach), T. T. Laidlaw,
 J. A. Forbes, K. S. McDowall.

I. H. McPherson, T. H. Kelsall (Stroke), R. H. A. Wettenhall,
 I. S. Buchanan (Cox).

To the Editor,

Dear Sir,

As you may know, the activities of the Rowing Club are greatly hindered by a serious shortage of boats. Through the generosity of some College friends, which we deeply appreciate, we now have sufficient eights, but the need for such boats as tub fours and pairs is very pressing. It is in these craft that the beginner is taught the fundamental principles of rowing, and no coach should be expected to turn out a winning crew from boys who have not received proper groundwork.

When it is considered that the cost of such boats is not excessive, it should be possible for some Old Boys or friends to club together and donate a boat between them. This would not be a burden upon any one person, and yet the results of such an arrangement would be beyond measure. Trusting this matter will be given immediate and sympathetic consideration, I remain,

Yours Sincerely,

Captain of Boats.

Tennis.

SCHOOL TOURNAMENT.

ENTRIES were very satisfactory this year, there being 52 players in the Open Handicap Singles and 24 pairs in the Open Handicap Doubles." The outstanding performance was that of J. L. Calhoun, who won the Open Championship Singles from W. P. Johnstone, the Open Championship Doubles and the Handicap Singles and Doubles. We heartily congratulate him on his success. He was partnered by I. H. McPherson in the Championship Doubles and by W. P. Johnstone in the Handicap. The Under 16 Singles Handicap was won by N. A. McKinnon, who was also second in the Under 16 Doubles Handicap with H. W. Birrell. The Under 15 Championship was won by A. McK. McDonald, who defeated W. G. Doig, last year's champion.

OPEN SINGLES CHAMPIONSHIP.

Semi-Finals—J. L. Calhoun d. J. W. Callander, 6—2, 6—3; W. P. Johnstone d. A. L. Fewster, 6—3, 6—4.

Final—J. L. Calhoun d. W. P. Johnstone, 6—3, 6—4.

OPEN DOUBLES CHAMPIONSHIP.

Semi-Finals—J. L. Calhoun and I. H. McPherson d. A. L. Fewster and S. M. Paton, 6—2, 5—6, 6—2; T. H. Kelsall and J. E. Richardson d. N. G. Sutherland and K. S. McDowall, 6—3, 6—4.

Final—J. L. Calhoun and I. H. McPherson d. T. H. Kelsall and J. E. Richardson, 6—0, 6—3.

OPEN SINGLES HANDICAP.

Semi-Finals—J. L. Calhoun (owe 80) d. A. L. Fewster (owe 40), 6—3, 6—3; B. C. McKenzie (owe 30) d. A. S. Feddersen (owe 50), 6—4, 6—2.

Final—J. L. Calhoun d. B. C. McKenzie, 5—6, 6—3, 6—0.

OPEN DOUBLES HANDICAP.

Semi-Finals—W. K. McKenzie and M. M. Mayne (owe 30) d. M. W. Macdonald and C. J. Dykes (owe 15½), 6—2, 6—5; J. L. Calhoun and W. P. Johnstone (owe 60½) d. B. C. McKenzie and I. H. Silke (owe 15½), 6—4, 6—5.

Final—J. L. Calhoun and W. P. Johnstone (owe 60½) d. W. K. McKenzie and M. M. Mayne (owe 30), 6—3, 5—6, 6—0.

UNDER 16 SINGLES HANDICAP.

Semi-Finals—N. A. McKinnon (owe 50) d. K. N. Saw (scr.), 6—1, 6—4; S. M. Paton (owe 50) d. C. N. L. Birrell (owe 30), 6—3, 6—0.

Final—N. A. McKinnon d. S. M. Paton, 3—6, 6—3, 6—1.

UNDER 16 DOUBLES HANDICAP.

Semi-Finals—A. L. Fewster and M. M. Mayne (owe 40) d. J. S. Young and I. W. McDonald (owe 15), 6—1, 6—2; N. A. McKinnon and H. W. Birrell (owe 40) d. S. M. Paton and J. R. Cooper (owe 40), 6—1, 6—3.

Final—A. L. Fewster and M. M. Mayne d. N. A. McKinnon and H. W. Birrell, 6—2, 3—6, 6—3.

UNDER 15 SINGLES CHAMPIONSHIP.

Semi-Finals—W. G. Doig d. I. Hope, 6—2, 6—5; A. McK. McDonald d. H. W. Birrell, 6—3, 6—4.

Final—A. McK. McDonald d. W. G. Doig, 6—4, 3—6, 13—11.

House Cricket.

THE three final rounds of House matches were played in the third term. On the whole series, Warrinn were first, Calvert and Shannon equal second and Morrison fourth.

Third Term results:—

Calvert—3 for 257 (Watson 121, Carmichael 71) and 1 for 47, defeated Morrison—138 (Callander 36, R. Gough 35, Watson 8 for 37).

Warrinn—7 for 244 (Calhoun 133, J. Lamb 74, S. Lamb 5 for 53), defeated Shannon—113 (Adam 39, Murray 20, Calhoun 6 for 36) and 3 for 56.

Warrinn—237 (Calhoun 103, J. Lamb n.o. 82) and 7 for 55, defeated Morrison—91 (Paton 37, Dykes 5 for 4).

Shannon—230 (Cooper 109, Adam 21, Johnstone 22, O'Connor 3 for 54), defeated Calvert—121 (Dennis 38, Troup 31, Adam 5 for 34).

Shannon—181 (Cooper 40, Adam 35, S. Lamb 32, Callander 5 for 63), defeated Morrison—43 (Sutherland 5 for 8) and 5 for 98.

Calvert—150 (Dennis 33, Troup 38, Young 37, Calhoun 3 for 40, McKenzie 3 for 19), defeated Warrinn—126 (Calhoun n.o. 87, Howells 4 for 39, Hill 3 for 24).

Sporting Calendar—Term I, 1938.

Cricket Fixtures—

March 4 and 5: Geelong Grammar School v. G.C.

March 11 and 12: Wesley College v. G.C.

March 18 and 19: G.C. v. Melbourne Grammar School.

March 25 and 26: G.C. v. Scotch College.

April 1 and 2: Xavier College v. G.C.

Boat Race on the Henley Course, May 12 and 13—

First Heat: Geelong College v. Geelong Grammar School.

Second Heat: Xavier College v. Scotch College.

Third Heat: Melbourne Grammar School v. Wesley College.

Commencing in 1938, there will be a reversion to the points system of scoring in cricket matches, as follows:—Outright win, 7 points; first innings win, 6; tie, 4; tie on first innings, 3; draw, 3; first innings defeat, 1.

DECEMBER, 1937.

Unofficialities.

(The Editor assures readers that all these items are founded on fact and invites enquiries from unbelievers. All such communications should be accompanied by the sum of ten shillings and addressed to the Editor personally.)

The long awaited electrical device is completed! By pressing a button which works a buzzer and an indicator, boys can now summon masters into the open spaces and avoid congestion round the common-room door at peak periods. Masters can retaliate by operating a green light meaning "Come in!" A blue light signifies: "I am busy having tea," a brown light: "Wait till this crossword is finished," a red light: "Leave the thing alone" and a striped light: "I have gone home." If all lights show at once it is advisable to hurry in the opposite direction. Next year, it is said, microphones and loud-speakers will be added, with television screens in 1939. Then, at last, the common-room will yield up its secrets. Strong men have been moved to poetry about it and we present the two best efforts in the hope of enlivening school singing:—

I—Tune (more or less) : " Three cheers for the Red, White and Blue!"

There once was a boy full of vice,
 Who went to employ the device.
 He pressed the wrong switch,
 Though he knew which was which,
 And now has regained Paradise.

II—Tune: " Excelsior."

The boys that night were calling fast;
 Each time the wires a signal passed,
 The master wished (he was not nice!)
 A spanner in that strange device,
 Or else he swore!

A Collegian has recently perfected a sure and safe method of catching fish. Take a scull, row to where the fish is visible, reach out and lift it into the boat. Simplicity itself! It may be necessary to part your hair in the centre, but we can vouch for the authenticity of this discovery.

October afternoon—week-end hike—hot, dusty, sweaty—sore feet.

Water!—Yes, a river!—deep in parts—stones in others.

Clothes off—splash wallow gurgle—"Come on. Sir!"

Sir comes on—racing dive—Olympic crawl—"Mind the rocks, Sir!"—water in ears—so cool.

Crash!—cranium cracks creek-bed—death yell of a Yorkshire brave?

Australian natives' corroboree—severe pains in ribs. Retreat, remorse, redress, return, recuperate.

And it came to pass in the eighth month of the thirty-seventh year that the king did send forth his messengers throughout the land to proclaim evil tidings to his people.

Behold, ye that would go hence into a far country to watch over your fathers' oxen, ye shall tarry with us yet awhile until the eleventh month.

And great was the lamentation throughout the land, and they did cover themselves with sackcloth and ashes.

And all they of the tribe of Kambel did assemble about the second hour, and they said, "Let us build us a wall where we may wail."

And it was so; and they builded a wall about two cubits high, and they did lift up their voices in a mighty wail.

But the king's heart was hardened, and he hearkened not unto them, and they sojourned in the land of Kolij many days.

Essay on "Hardships at sea in the 18th Century"—The ships were very hard because they were made of hard wood and were hard to steer; the captains were hard and the food was hard and this made the men hard. (Hard to be hard on this boy!)

"On this excursion the head chemist showed us how much of the apparatus worked."

What we want to know! Haven't the prefects got hymn-books, or do they like the daily rush of Prep. School hero-worshippers?

In the tropics there are three seasons: the hot and wet, the hot and dry, and the wet and dry.

French class comment: "There is a difference between being embraced and being embarrassed!" It takes a lot to embarrass some people.

While strictly amateurs, many Collegians manage to play cricket for both pleasure and Profit.

The Hume Receiving is undoubtedly to receive.

A partnership is when two men go into business and if they go bankrupt they share the money.

Il entra le chapeau a la main—"He entered the castle on his hands."

"The poet's wife was drowned in the Turpentine." Overcome by the spirit of poetry?

More Indian magic! "They make electricity from water in turbans."

Boys' Charity Fund.

In the regular Friday morning collections during 1937, boys of the College have contributed to charity the sum of £20/10/-, which has been distributed among The Geelong Protestant Orphanage, Geelong Hospital, Blind Library, Aerial Medical Service, Australian Inland Mission, League of Nations, Unemployed Boys' Centre, Ernabella Mission, Infantile Paralysis After Care, Geelong West Kindergarten, Chilwell Kindergarten, Geelong City Kindergarten, Kilmarnock Park Boys' Home and the Kildonan Children's Home.

After the Tests.

Boys of this congregation intent on graduation should dig their claws into the laws of Thermal Radiation. Instead of Æsop's fables, Garbos, or racing stables, your minds should think of chemical stink or Periodical Tables.

These fellows that I mention should make it their intention to learn the cause of all the laws of bodies in suspension. Let no thought of the rumba your feeble minds encumber! And do not dream of cakes and cream, but of the Transport Number! Swot up about convection, the ways of base detection; and take my tip and get a grip of theories of projection!

Take heed of my suggestions to move your brain's congestions, and, if you do, you may get through (if you get easy questions).

OLD BOYS' SECTION.

Old Geelong Collegians' Association.

(Established 1900).

OFFICE-BEARERS, 1937-38.

President:

A. W. DENNIS.

Vice-Presidents:

A. W. COLES

C. H. WILLMOTT

Hon. Secretary:

S. B. Hamilton-Calvert.

Hon. Treasurer:

A. W. Gray.

South Australia—R. E. Jacobs, 31 Thornber Street, Unley Park, Adelaide.

West Australia—A. G. Sloane, 98 Tyrell Street, Nedlands, W.A.

Riverina—J. H. Davidson, C/o. Divisional Engineer, P.O., Wagga.

Annual Meeting.

THE Association had originally planned to hold its annual reunion in conjunction with the senior school sports, which were to have taken place on Saturday, October 16, but which were postponed on account of rain. However, as it was not considered desirable that Old Boys from Melbourne should visit the school during the epidemic, the committee decided to forego the reunion and to hold only the business meeting.

Mr. A. W. Dennis was elected president in succession to Mr. N. M. Freeman. A full list of office-bearers appears on the preceding page.

The secretary read the report of the year's activities, including a full account of the seventy-fifth birthday celebrations and the presentations to the College from this association. Congratulations were extended to the Principal on his appointment as Moderator of the Presbyterian Church of Victoria in its centenary year. The Assembly re-elected to the College Council Mr. A. W. Gray, Dr. A. N. McArthur and Dr. A. E. Pillow as members for a further term of two years, and Mr. S. B. Hamilton-Calvert as Chairman of Council.

The report concluded: "The committee, on behalf of members, congratulates its old school upon its success during the past year, its sustained increase in boarders, the successful teaching staff, the University examination results and its good position in sport; congratulates many old boys who gained honours at the Melbourne University and abroad, and thanks those generous Old Collegians who have, by their gifts, assisted the school in so many ways. The committee offers thanks to the members and friends who have contributed liberally to the various funds, and especially thanks the members of the association for their loyal support throughout the year."

75th Anniversary Presentation Oval.

THE Committee desires to acknowledge with thanks the donations received since the issue of the last "Pegasus," and at the same time to remind a few more old boys that the overdraft awaits their mail. Please address payments to the Secretary, No. 4 James Street, Geelong, as early as convenient.

The late Mr. W. R. Bayly.

MANY Old Collegians will regret to hear of the death on November 9th of Mr. W. R. Bayly, who succeeded Mr. Norman Morrison as Principal of Geelong College, occupying that position in the years 1910—1914.

Those who were associated with the College when the tragic death of Mr. Morrison occurred, wondered how the school would survive, especially when it was realised that there was no possibility of another member of the family being available to carry on the Morrison tradition. It was a difficult task to follow "the Skipper" but Mr. Bayly, by his obviously sincere desire to keep to the school traditions without losing his own individuality, succeeded in winning the respect and regard of the members of the school. Mr. Bayly's task of growing into the school was all the more difficult because, owing to the ill-health and absence of Mr. Stanley Calvert, the liaison between Old Boys and the College was not quite as close as usual.

Mr. Bayly was interested in all branches of the school life and sport, but especially so in Rowing and the Cadet Corps. Although he no longer held a commission in the latter, he showed a very keen interest in the training carried out.

During Mr. Bayly's term of office he was away for several months on a trip which he had been on the point of taking at the time of his appointment. At the end of his fifth year, the headmastership of Prince Alfred College, Adelaide, became vacant; the call of his old school was too strong to resist and, with regrets on both sides, he resigned the position at Geelong. However, he still kept up a keen interest in the College and constantly showed by his letters how closely he followed the progress of the school and of the Old Boys' Association and what it was doing for the development of the College.

The Ormond Letter.

Dear Collegians,

The last few weeks have been so taken up with the rush of work for the annual examinations that events in Ormond during second term and the early part of third term seem very remote. However

one calls to mind the Inter-Collegiate sporting fixtures and such events as the College Play and Ball, not to mention the Morrison Fours Regatta and the Valedictory Dinner which follows it.

In Inter-Collegiate sport the Ormond football team defeated Trinity, but once again had to yield to the superiority of Newman in the final. Newman at present seem to be unshakeable in their position in football. Nevertheless we will follow the well known practice and look to "next year." Old Collegians in the football team were Don. Watson, Menzies Bartlett, Albert Piper and Geoff. Hicks, all of whom more than earned their places. Our tennis team was more successful and gained its sixth successive victory for Ormond. Alistair McLean (captain) was the only Old Collegian in the team.

The Ormond Play and Ball were again particularly successful—the Play held early in July and the Ball in the first week of third term. Since then work has been the main feature of College life, the only break being provided by the Morrison Fours Regatta and Valedictory Dinner early in October. At the dinner those who were farewelled from Ormond included three Old Collegians: Pat. Wood, Alistair McLean and Jim Young, who have completed courses in Theology. All three have represented Ormond in various teams and have taken part in College and University activities throughout their courses. Pat Wood in particular, as president of the College for the past two years, has been prominent in the life of Ormond and has filled with distinction a position held by many Old Collegians in the past.

Although there are only three Old Collegians going down from Ormond this year, we hope to see a good number of you among the freshmen, so that the school may be even better represented here than in the past few years.

To you all we send our very good wishes for the best of luck in 1938.

ORMOND.

THE PEGASUS,
 ENGAGEMENTS.

Francis M. Funston to Miss Agnes Alison Tulloch of Ballarat.
 Charles A. Walker to Miss Eileen Ruby Allen of "Boorook,"
 Mortlake.

Alan Lang to Miss Alice Gerrard of Beeac.

Ronald E. Campbell to Miss Marie Rule of Geelong.

Ivan Hirst to Miss Blanche Ritchie of Geelong.

Donald A. Ingpen to Miss Muriel Warden, Geelong.

John H. Armstrong to Miss E. Shackell, Kooyong.

Ray. Gough to Miss Phyllis Read, Braxholme.

Bruce Reid of "Arrolla," Oorindi, North Queensland, to Miss
 Betty McDonald, Longreach, Queensland.

R. Max. Hamilton to Miss Lesley Simms, East Malvern.

Paddy Chapman to Miss Henrietta Lawrence of Ballarat.

W. Mac. Troup to Miss Janet Hamilton of 3 Wallace Avenue,
 Toorak.

MARRIAGES.

Ian A. Stewart to Miss Alma Trigg, at St. George's Kirk, Geelong,
 by the Rev. J. McMaster assisted by the Rev. A. J. Stewart, father
 of bridegroom, on 19th June, 1937.

M. J. Lamont to Miss J. Scott, at St. George's Kirk, Geelong, by
 the Rev. J. McMaster and Rev. F. W. Rolland, September, 1937.

G. Stuart Read to Miss Eleanor (Nell) Kerfoot, on 11th October,
 by Rev. J. B. Rentoul. New address "Lansdowne," Yarck, Victoria.

D. D. Read to Miss Marjorie Smith of Camberwell. New address
 "Graceburn Park," Koriella, Victoria.

Francis J. Daniel to Miss Cynthia Moore of "Borriyalloak,"
 Skene Street, Geelong, on November 6th, 1937, at All Saints' Church,
 Geelong.

Roy D. Birdsey to Miss Muriel Wiggs of Geelong, on October 25th.

L. A. Hancock to Miss Dora Hearn of Ballarat, in October.

DECEMBER, 1937-

63

John L. Doyle to Miss Dorothy Anderson of Geelong, on November 6th.

David I. Morrison, 1st Punjab Regiment, India, to Miss Margaret Green of "Hurst House," Chesterfield, England; celebrated at Poona on November 10.

Gordon Eaton, Bendigo, to Miss Vi. Landry of Geelong, on December 4.

Alex. J. M. Sinclair to Miss Dorothy Gepp.

John R. Adam to Miss Betty Cameron of Hawthorn on July 23.

A. E. ("Dick") Purnell to Miss Jean McIntyre on December 11.

Dr. Arthur Moreton to Miss Jean Dobie on November 30.

BIRTHS.

To Mr. and Mrs. Loris Solomon, 15 Springfield Avenue, East St. Kilda, on November 3—a daughter.

To Mr. and Mrs. Jack Ockleston, Violet Town, on June 16—a daughter.

To Mr. and Mrs. W. J. Lang, at Colac on July 15—a son.

To Rev. H. L. and Mrs. Taylor of Kunyurna Mission Station, Northern Territory—a daughter.

To Mr. and Mrs. G. S. McArthur, "Meningoort," Camperdown—a son, Fergus Stewart.

OBITUARY.

John Calvert Bell, who left the College in 1873, passed away on July 26 at his home at Addiscot.

We desire to express our deepest sympathy to Frank Richardson in the loss of his beloved wife.

Our deepest sympathy is extended to George A. Gray, of Glenorchy, and his family, Jack, Mary and Swinton, on learning of the death of Mrs. Gray on August 29.

John William O'Brien, M.A., M.B., B.Ch., F.R.C.S.I. (1871), passed away at his home, 2 Tashinny Road, Toorak on 26th November.

—our sympathy goes out to his Collegian son, J. Seldon, his widow, Mrs. O'Brien and her two daughters.

Mrs. Margaret Hester, widow of Robert Carstairs Bell, late of Mooramong Station, died at Toorak on 29th November.

George Leslie Hosford (1921) died in Melbourne on 29th November—to his parents we extend our sympathy.

Brevities.

THE London Annual Re-union held at the Hotel Victoria, Northumberland Avenue, provided an enjoyable meeting for those who were able to participate. Our thoughtful organiser, J. D. Harper, had spared no effort to notify the Old Boys of the Homeland, many of whom had unfortunately left London for Scotland or the Continent. We were pleased that both Ivan Cameron and I. Stodart-Barr found their way to the gathering this year and Jim Kininmonth, Jr., was there to report on the doings of the western plains of Victoria.

The Old Public School Boys of Kyneton held their annual Reunion and Ball on June 11. Les. J. Foreman has been President for the past year and acted as Chief Host at the Ball.

Chairs have been presented to the Dining Hall by the following old boys: William Chapman (1898), G. E. M. Scott (1917), A. J. Stewart (1896), John Eddy (1913), C. E. Hipwell (1909), R. H. C. Laidlaw (1933), John Hood (1928).

Charles Naples Brown has been elected Mayor of the City of Geelong for the third successive year. Very hearty congratulations are extended to both Mrs. Brown and the Mayor, who will no doubt experience an exceptionally heavy year of office, 1938 being the Centenary Year of the City.

James D'Helin has been appointed as organiser of the Geelong Centenary celebrations, which will commence in October, 1938. He will take over his duties in January of next year.

In the " landslide " at the recent Senate election, J. F. Guthrie and M. Wettenhall were numbered among the victims, but we congratulate both on conducting a campaign worthy of the dignified action to which they aspired.

Jock Watson passed his examinations at Aberdeen University last July and was doing dispensary work before taking a well earned rest in August. He witnessed the Scottish Tennis Championships and also tried his hand at fishing on the Tweed before settling down to the dispensary work. He managed to win the University quarter mile and won a handsome watch as first prize for the same distance at the Fochaber Games, where he met the late Mr. Ramsay McDonald. Jock was selected to accompany the Scottish running team which was leaving for Paris later in August.

"Scotty" Pattison graduated with honours, also winning a valuable bursary for Dick College, Edinburgh, where he will study for three years before migrating to East Africa.

Colin C. Bell is now residing in Sydney permanently.

Bill Waugh the younger, having recently sold his property at Bellata, is temporarily residing in Sydney.

Alan Thompson is now President of the Sydney Old Boys' Association.

A few Old Boy friends were present in Sydney at the christening of Don. Roadknight's little daughter.

Alex. Sinclair has now taken his M.R.C.P. in London. It is several years since he took his Bachelor of Medicine and Surgery at the Melbourne University and added M.D. to his other letters. He pulled a good oar in the Eight and played with the XVIII, besides being Dux of the School, and was later in Queensland as a "flying doctor."

W. J. Read is now located at Culcairn, N.S.W., having left "Brahour," Wagga.

Ian Stewart has secured a property, "Melrose," Willow Grove, via Moe, Gippsland, where he has now settled down after his wedding in June.

Jim Balfour, now married, has settled on his property at "Warwillah," Willow Grove, via Moe.

Dr. Ian Gibb attended the Medical Congress at Adelaide in August. He returned by way of Mildura, visiting Wilfred Macmillan at Mildura and Alec. Milne at Merbein. He also called to see Dr. J. L. W. Sharland at Bendigo before completing his round trip.

THE PkGASUS,

Norman McArthur attended the Congress at Adelaide, which unfortunately prevented his attendance at the College for the official opening of the House of Music.

Peter McArthur is now growing good wool on his property, "Selsdon Park," Narracoorte, S.A.

"Scotty" White has spent some time at Leith Hospital before going into general practice in Sunderland, where he worked for some time as assistant to a former Edinburgh graduate. He returned last April to Edinburgh. Having already gained his M.B., Ch.B., he is now working for his M.D. and D.P.H., which will occupy some time.

Ronald J. Wilson returned from England in August to fill an important architectural office at the Gordon Institute of Technology, Geelong. We wish him every success in his appointment.

Murdoch Lamont has been elected President of the Old Public School Boys' Association of Wagga Wagga. The Society recently held its Annual Ball, which passed off very happily.

Bill McDowall is building a house and intends to be married early in the New Year.

Jack Baird is in charge of G. J. Coles and Co's. Mildura Branch.

Bill Berry is largely interested in the Ford Car Agency at Mildura.

Ross Quick is outdoor sales manager for Washington's, Mildura, and in the tennis world holds the District Championship.

Bob Barnett was very successful in his final examination in Pharmacy.

Stuart Purnell will shortly enter into legal practice at Kyneton.

Rev. E. C. Harris, B.A., supervised the public examinations conducted at the College this year.

Finlay Funston, Claud Notman and Allan Thompson played with the Skipton football XVIII last season, gaining premiership honours for the first time in thirteen years.

Congratulations to Graham McKenzie on winning the exhibition i Physiology.

K. Alston is on the staff of the Beam Wireless Terminal, Ballan.

Adrian Douglas has been in Geelong for the practical side of his first year's engineering.

Phil. Ebbott was successful at the final examination in advanced accounting.

Eliot Barnfather and Vautin Andrews have successfully completed their fourth year Law articles.

Bob Goodall made a complete recovery from his illness last year and has got into good running form. He competed in the final trial for Victoria's 880 yards representative at the Australian Championships.

Jim Nimmo recently returned from a trip abroad.

Reg. Campbell performed the opening ceremony at the Inverleigh Annual Spring Show.

E. W. McCann is President of the Geelong Agricultural Society.

James Young is to be congratulated on winning the Professor Main travelling scholarship for the outstanding student at the Theological Hall, Ormond College.

Old Boys will unite in wishing Lindsay Hassett a successful season in view of his prospects of inclusion in the Australian Test Team.

Harrington Brownhill has returned to Adelaide after an exciting tour of the world including a visit to Spain.

Geoff. Badger, Jack Legge, Don. Houston and Arthur Martin played leading parts in the Engineering and Science Exhibitions at the University.

R. J. Mayne is with Burns, Philp and Co. in Sydney.

Among the Old Collegians working in Melbourne, Don. Turner has returned to softgoods, this time favouring Hicks, Atkinson; Gavin Baird is making progress in Vacuum Oil; Boyd Ferguson is at the family engineering works at Footscray; Keith Angwin with the Union Steamship Co.

Of the many Old Boys in Coles' Stores, Garnet Lamb is now managing the Horsham Branch, Abe Crabtree being in charge of the new store in Balaclava. Ian Hood, Bill Holzgreffe and Mac. Murton are in the main Bourke St. store.

Dr. F. M. Burnet has played an important part in the work of the consultative council on infantile paralysis.

Lindsay Morrison has passed his Intermediate Accountancy and is still stationed at the State Savings Bank, Terang.

Jack Legge shared the exhibition for Physiology, Part III, in his Science course.

Jim Chisholm has been studying accountancy. He is making a good recovery from a recent operation.

Exchanges.

We acknowledge the receipt of the following exchanges and desire to apologise for any omissions—The Rafflesian, The Sydneian, The Scotch Collegian, Scotch College Magazine (S.A.), The King's School Magazine, Wesley College Chronicle, The Minervan, The Longerenong Collegian, The Newingtonian.

New South Wales Stop Press.

The Sydney Representatives of the Six Victorian Public Schools have decided to hold a Sesqui Centenary Dinner in Sydney on the 18th April, 1938. Any old boys visiting Sydney at that date will be welcome even if they live in another State. Circulars will shortly be forwarded by the secretaries of the respective Old Boys' Branches in Sydney.
